Sommario/riassunto	As Europe's guardian of democracy, human rights and the rule of law, the Council of Europe is committed to exploring the state and practice of European democracy, as well as identifying new challenges and anticipating future trends. In order to facilitate this reflection, the Council of Europe held a series of Democracy Debates with the participation of renowned specialists working in a variety of backgrounds and disciplines. This publication presents the eight Democracy Debate lectures. Each presentation analyzes a specific aspect of democracy today, placing the issues not only in their political context but also addressing the historical, technological and communication dimensions. The authors make proposals on ways to improve democratic governance and offer their predictions on how democracy in Europe may evolve. Together, the presentations contribute to improving our understanding of democracy today and to

recognizing the ways it could be protected and strengthened.
