Note generali	First published London : Profile Books, 2007 under title: The dragon and the elephant.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Introduction: India, China and the new world order -- The return of history -- Enter the dragon -- India rising -- China roars, the world listens -- India's networked economy -- China versus India -- Ten ways China and India will (and won't) change the world.
Sommario/riassunto	The ascension of China and India will be the outstanding development of the 21st century, raising fundamental questions about both the structure of the world economy and the balance of global geopolitical power. How aggressive a superpower will China be? And what about India, whose vast population and economic prospects appear to guarantee prosperity? Economist David Smith analyzes in depth the rapid eastward shift in global power to Beijing and Delhi -- and its enormous ramifications for the west.
