

1. Record Nr.	UNINA9910968857203321
Titolo	The interactional instinct : the evolution and acquisition of language / / Namhee Lee ... [et al.]
Pubbl/distr/stampa	Oxford ; ; New York, : Oxford University Press, 2009
ISBN	0-19-972497-0 1-282-33564-2 9786612335648 0-19-972496-2
Edizione	[1st ed.]
Descrizione fisica	1 online resource (244 p.)
Altri autori (Persone)	LeeNamhee <1961->
Disciplina	401/.93
Soggetti	Language acquisition Language and languages - Origin Social interaction
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references (p. 195-222).
Nota di contenuto	Grammar as a complex adaptive system -- Evidence for language emergence -- The implications of interaction for the nature of language -- Interactional readiness : infant-caregiver interaction and the ubiquity of language acquisition -- A neurobiology for the interactional instinct -- The interactional instinct in primary- and second-language acquisition -- Conclusion : Broader implications of the interactional instinct.
Sommario/riassunto	The Interactional Instinct presents a theory of language based on linguistic, evolutionary, and biological evidence indicating that language is a culturally inherited artifact that requires no a priori hard wiring of linguistic knowledge. Its structure evolved phylo- genetically from interaction among speakers and is acquired through emotionally entrained interaction with conspecifics.
