

1. Record Nr.	UNINA9910968935203321
Autore	Kramer Ronald C.
Titolo	Carbon Criminals, Climate Crimes / / Ronald C. Kramer
Pubbl/distr/stampa	New Brunswick, NJ : , : Rutgers University Press, , [2020] ©2020
ISBN	9781978807648 1978807643
Edizione	[1st ed.]
Descrizione fisica	1 online resource (301 pages)
Collana	Critical Issues in Crime and Society
Altri autori (Persone)	WhiteRob
Disciplina	364.1/45
Soggetti	Environmental justice Offenses against the environment Climatic changes - Government policy Climatic changes - Moral and ethical aspects Corporations - Corrupt practices Criminology - Environmental aspects Global warming - Government policy Global warming - Moral and ethical aspects
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Front matter -- Contents -- Foreword -- 1. "This Was a Crime": Climate Change as a Criminological Concern -- 2. "Beyond Catastrophic": The Climate Crisis, Carbon Criminals, and Fossil Capitalism -- 3. "When Did They Know?": Climate Crimes of Continued Extraction and Rising Emissions -- 4. "The Politics of Predatory Delay": Climate Crimes of Political Omission and Socially Organized Denial -- 5. "Slowing the Rise of the Oceans?": Obama's Mixed Legacy and Trump's Climate Crimes -- 6. "Blood for Oil," Pentagon Emissions, and the "Politics of the Armed Lifeboat": Climate Crimes of Empire -- 7. The "Climate Swerve": Hope, Resistance, and Climate Justice -- Acknowledgments -- References -- Index -- About the Author
Sommario/riassunto	Carbon Criminals, Climate Crimes analyzes the looming threats posed by climate change from a criminological perspective. It advances the field of green criminology through a examination of the criminal nature

of catastrophic environmental harms resulting from the release of greenhouse gases. The book describes and explains what corporations in the fossil fuel industry, the U.S. government, and the international political community did, or failed to do, in relation to global warming. *Carbon Criminals, Climate Crimes* integrates research and theory from a wide variety of disciplines, to analyze four specific state-corporate climate crimes: continued extraction of fossil fuels and rising carbon emissions; political omission (failure) related to the mitigation of these emissions; socially organized climate change denial; and climate crimes of empire, which include militaristic forms of adaptation to climate disruption. The final chapter reviews policies that could mitigate greenhouse gas emissions, adapt to a warming world, and achieve climate justice.
