Sommario/riassunto	Mexico's Unrule of Law: Human Rights and Police Reform Under Democratization looks at recent Mexican criminal justice reforms. Using Mexico City as a case study of the social and institutional realities, Niels Uildriks focuses on the evolving police and justice system within the county's long-term transition from authoritarian to democratic governance. By analyzing extensive and penetrating police

surveys and interviews, he goes further to offer innovative ideas on how to simultaneously achieve greater community security, democratic policing, and adherence to human rights.
