

1. Record Nr.	UNINA9910969057603321
Autore	Merchant Carolyn
Titolo	Ecological revolutions : nature, gender, and science in New England // Carolyn Merchant ; with a new preface and epilogue by the author
Pubbl/distr/stampa	Chapel Hill [N.C.] : University of North Carolina Press, 2010
ISBN	979-88-9313-462-9 979-88-908862-7-9 1-4696-0389-6 0-8078-9962-3
Edizione	[2nd ed.]
Descrizione fisica	1 online resource
Collana	H. Eugene and Lillian Youngs Lehman series
Disciplina	304.20974
Soggetti	Human ecology - New England - History Indians of North America - New England - Economic conditions Human ecology - Philosophy - History New England Economic conditions
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Intro -- Contents -- Preface to the Second Edition -- Preface -- 1 Ecology and History -- PART ONE: The Colonial Ecological Revolution -- 2 Animals into Resources -- 3 From Corn Mothers to Puritan Fathers -- 4 The Animate Cosmos of the Colonial Farmer -- PART TWO: The Capitalist Ecological Revolution -- 5 Farm Ecology: Subsistence versus Market -- 6 The Mechanization of Nature: Managing Farms and Forests -- 7 Nature, Mother, and Industry -- 8 Epilogue: The Global Ecological Revolution -- APPENDIXES -- Appendix A: Foods of Southeastern New England Indians, 1600-1675 -- Appendix B: Pelts Exported by John Pynchon, 1652-1663 -- Appendix C: Profile of Fifteen Inland Massachusetts Towns -- Appendix D: Land Use in Concord, Massachusetts -- Appendix E: Products of the New England Forest, 1840 -- Notes -- Bibliography -- Index -- A -- B -- C -- D -- E -- F -- G -- H -- I -- J -- K -- L -- M -- N -- O -- P -- Q -- R -- S -- T -- U -- V -- W -- Y -- Z.
Sommario/riassunto	With the arrival of European explorers and settlers during the seventeenth century, Native American ways of life and the environment

itself underwent radical alterations as human relationships to the land and ways of thinking about nature all changed. This colonial ecological revolution held sway until the nineteenth century, when New England's industrial production brought on a capitalist revolution that again remade the ecology, economy, and conceptions of nature in the region. In *Ecological Revolutions*, Carolyn Merchant analyzes these two major transformations in the New England environment between 1600 and 1860. In a preface to the second edition, Merchant introduces new ideas about narrating environmental change based on gender and the dialectics of transformation, while the revised epilogue situates New England in the context of twenty-first-century globalization and climate change. Merchant argues that past ways of relating to the land could become an inspiration for renewing resources and achieving sustainability in the future.
