Sommario/riassunto	The company owned the houses. It owned the stores. It provided medical and governmental services. It provided practically all the jobs. Gary, West Virginia, a coal mining town in the southern part of the state, was a creation of U.S. Steel. And while the workers were not formally bound to the company, their fortunes-like that of their community-were inextricably tied to the success of U.S. Steel. Gary developed in the early twentieth century as U.S. Steel sought a new supply of raw material for its industrial operations. The rich Pocahontas coal field in remote southern We

Sommario/riassunto	Concerned with traditional power imbalances between researchers and participants, contemporary social science has begun using collaborative research as an empowering methodology that involves participants in key decisions. Collaborative research is a potentially revolutionary method for studying people and their cultures, but does it work in practice? <i>Staging Strife</i> looks at the limits of this methodology by

examining a politically charged theatre performance undertaken with a group of Roma women in Poland.
