1. Record Nr. UNINA9910969261203321

Titolo	Algae : nutrition, pollution control and energy sources / / Kristian N. Hagen, editor
Pubbl/distr/stampa	New York, : Nova Science Publishers, c2009
ISBN	1-60876-622-5
Edizione	[1st ed.]
Descrizione fisica	1 online resource (337 p.)
Altri autori (Persone)	HagenKristian N
Disciplina	579.8/16
Soggetti	Algae as food Algae - Biotechnology Algae - Control Algae
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	""Algae: Nutrition, Pollution Control and Energy Sources""; ""Contents""; ""Preface""; ""Research and Review Studies""; ""Microalgae as Photosynthetic Oxygen Generators for Pollution Control, Life Support Systems and Medicine""; ""Abstract""; ""Introduction""; ""Photosynthetic Oxygen and the Evolution of Life""; ""The use of Photosynthetic Oxygenation for Bioremediation Processes""; ""Photosynthetic Oxygenation for Atmosphere Regeneration in an Enclosed Space Ecosystem""; ""Photosynthetic Oxygen Generator for Artificial Organs""; ""Conclusion""; ""Acknowledgement""; ""References"" ""Polyphosphate Contributes to Cd Tolerance in Chlamydomonas Acidophila KT-1""""Abstract""; ""1. Introduction""; ""2. Material and Methods""; ""3. Results""; ""4. Discussion""; ""References""; ""Study on Lead and Cadmium Absorption by the Organic Components of Natural Biofilms""; ""Abstract""; ""1. Introduction ""; ""2. Experimental Section ""; ""3. Results and Discussion ""; ""4. Conclusion ""; ""Acknowledgments ""; ""References ""; ""Desiccation Tolerance in Green Algae: Implications of Physiological Adaptation and Structural Requirements""; ""Abstract""; ""1. Introduction"" ""2. Desiccation Tolerant Green Algae""""3. Desiccation as a General Problem""; ""4. Lessons from other Desiccation Tolerant Plants""; ""5. Conclusion""; ""Acknowledgement""; ""References""; ""Utilization of

Algae for Pollution Elimination""; ""Abstract ""; ""1. Introduction ""; ""2. Behaviour of Algae in the Presence of Inorganic Stressors ""; ""3. Uptake of Metal Ions from the Environment ""; ""4. Removal of Inorganic Pollution ""; ""5. Removal of Organic Pollution ""; ""6. Treatment of Domestic Wastewater and Nutrient Removal ""; ""7. Biomonitoring Using Algae ""; ""8. Conclusion ""
""Acknowledgement """"References ""; ""Ultrasonic Control and Removal of Cyanobacteria""; ""Abstract""; ""1. Introduction""; ""2. Materials and Methods""; ""3. Ultrasonic Algae Control""; ""4. Potential Mechanisms""; ""5. Ultrasonic Degradation of Algal Toxins""; ""Conclusion""; ""References""; ""Effects of Acidification on Photosynthesis and Growth of Marine Algae: A Reapraisal of the Laboratory Data and Their Applicability to the Natural Habitats""; ""Abstract""; ""1. Introduction""; ""2. Is the CO2 a Limiting Factor for the Algal Photosynthesis?""
""3. Testing the Effects of the Acidification on Photosynthesis and Growth""""4. Conclusion""; ""Acknowledgments""; ""References""; ""Sulfated Polysaccharides from Algae: Characteristic Structures and Their Medicinal Applications""; ""Abstract""; ""Introduction""; ""Sulfated Polysaccharides from Blue-Green Algae ""; ""Sulfated Polysaccharides from Red Algae ""; ""Sulfated Polysaccharides from Green Algae ""; ""Biological Activities of Sulfated Polysaccharides from Algae ""; ""References ""; ""Seaweeds and Thyroid Gland - Potential Sequelae of Seaweed-Derived Iodine""; ""Abstract""
""Introduction""

Sommario/riassunto

Contents: Preface; Research and Review Studies; Microalgae as Photosynthetic Oxygen Generators for Pollution Control, Life Support Systems and Medicine; Polyphosphate contributes to Cd tolerance in Chlamydomonas acidophila KT-1; Study on Lead and Cadmium Adsorption by the Organic Components of Natural Biofilms; Desiccation Tolerance in Green Algae: Implications of Physiological Adaptation and Structural Requirements; Utilisation of Algae for Pollution Elimination; Ultrasonic Control and Removal of Cyanobacteria; Effects of the Acidification on Photosynthesis and Growth of Marine Algae: A Reappraisal of the laboratory Data and Their Applicability to the natural habitats; Sulfated Polysaccharides Form Algae Characteristic Structures and Their Medicinal Applications; Index
