

1. Record Nr.	UNINA9910969306503321
Titolo	Active citizenship : what could it achieve and how? // edited by Bernard Crick and Andrew Lockyer
Pubbl/distr/stampa	Edinburgh, : Edinburgh University Press, c2010
ISBN	9786612899799 9780748671939 0748671935 9781282899797 1282899791 9780748643226 0748643222
Edizione	[1st ed.]
Descrizione fisica	1 online resource (225 p.)
Altri autori (Persone)	CrickBernard <1929-2008.> LockyerAndrew
Disciplina	323.60941
Soggetti	Citizenship - Great Britain Political participation - Great Britain Social participation - Great Britain
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	COVER; Copyright; Contents; Acknowledgements; Preface; Prolegomenon; Contributors; Introduction; 1. Civic Republicanism and Citizenship: the Challenge for Today; 2. Active Citizenship and Labour; 3. The Fourth Principle: Sharing Power with the People of Scotland; 4. Power and Public Services: for Customers or Citizens?; 5. Active Citizenship: Gender Equality and Democracy; 6. What can Active Citizenship Achieve for Schools and through Schools?; 7. Active Citizenship: Multiculturalism and Mutual Understanding; 8. Active Citizenship: for Integrating the Immigrants 9. Democratic Citizenship and Lifelong Active Learning10. Active Citizenship for Europe and International Understanding; 11. Young People as Active Political Citizens; 12. Active Citizenship and Sharing Power in Scotland: the Need to Go Beyond Devolution; 13. Identity Politics: Multiculturalism, Britishness and Europe; Index

Sommario/riassunto	Considers the possibilities for active citizenship within areas of broad concern in UK politics: young people and justice; parliaments with the people; women and equality; integrating immigrants; multiculturalism; schools; community; social inclusion and poverty; Europe; nationalisms and Britishness.

2. Record Nr.	UNINA9910960981003321
Autore	Winegarden Cindy
Titolo	Visual FoxPro certification exams study guide / / Cindy Winegarden, Evan Delay
Pubbl/distr/stampa	Whitefish Bay, Wis., : Hentzenwerke Publishing, c2001
ISBN	1-280-54414-7 9786610544141 1-930919-18-2
Descrizione fisica	187 p
Altri autori (Persone)	DelayEvan
Disciplina	005.75/65
Soggetti	Computer programmers - Certification Database management Electronic data processing personnel - Certification Object-oriented programming (Computer science)
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Title from title screen.
Nota di contenuto	Intro -- Dedication -- List of Chapters -- Our Contract with You, The Reader -- Table of Contents -- Foreword -- Acknowledgements -- About the Authors -- How to Download the Files -- Introduction -- Who we are -- How we started -- Who you are -- You can do this! -- Why get certified? -- Certification benefits -- Transcript -- Wallet card, lapel pin -- Logo -- Other goodies -- Leveraging your preparation time -- Study in groups -- Know what Microsoft wants -- Know what you do best -- Practice -- Overcoming obstacles -- Scheduling and taking the exams -- Use the pencil! -- Certification requirements -- MCSD requirements -- Exams 70-155 and 70-156 -- Exam 70-100 -- Exam retirement -- Further reading -- Testing centers -- Exam demos

-- Chapter 1 Developing the Conceptual and Logical Design --  
Conceptual design -- Logical design -- Further reading -- Design --  
Object-oriented design -- Chapter 2 Developing a Logical Data Model  
-- Normalization rules -- First Normal Form (1NF) -- Second Normal  
Form (2NF) -- Third Normal Form (3NF) -- Boyce-Codd Normal Form  
(BCNF) -- Fourth Normal Form (4NF) -- Fifth Normal Form (5NF) -- The  
primary key -- Relationships -- One-to-one relationships -- One-to-  
many relationships -- Many-to-many relationships -- Foreign keys --  
Referential integrity -- Business rules, data integrity and the data  
model -- Denormalization -- Denormalization for reporting --  
Denormalization for data warehousing -- Denormalization for  
performance -- Further reading -- Chapter 3 Deriving the Physical  
Design -- Design considerations -- Performance -- Maintainability --  
Extensibility -- Availability -- An example with COM -- Class libraries  
-- Inheritance -- Encapsulation -- Containership -- Delegation --  
Polymorphism -- Class libraries -- Designing an interface for data  
access -- Designing the properties and methods of components.  
Designing the presentation tier -- Further reading -- Chapter 4  
Establishing the Development Environment -- Installing Visual FoxPro  
-- Configuring Visual FoxPro -- Registry configurations -- SET  
commands and configuration files -- Resource files -- Command line  
switches -- Toolbars -- Configuring Visual SourceSafe -- Configuring  
Microsoft Transaction Server -- Configuring Microsoft Internet  
Information Server -- Configuring Microsoft Message Queue -- Further  
reading -- Third-party software -- Chapter 5 Creating User Services --  
Providing a personalized interface -- Personalizing colors -- Keyboard  
and mouse access -- Sound and focus -- User or group options --  
Planning the interface -- Forms -- Menu systems -- Form controls in  
general -- Toolbars -- User interaction with forms -- Form properties,  
events, and methods -- Binding data to controls -- Manipulating  
controls at run time -- Using the \_SCREEN.ActiveForms collection --  
Validating user input -- Processing entered data -- Form events and  
methods -- Form control events and methods -- Compiling data in  
reports -- COM and Office Automation -- Error handling -- Errors in  
COM objects -- Providing online Help -- Extending functionality  
through the Windows API -- Visual FoxPro on the Web -- Further  
reading -- Third-party software -- Chapter 6 Creating and Managing  
COM Components -- What is COM? -- Creating COM components --  
COM server types -- Business rules -- Interacting with other  
components -- COM error handling -- Designing components for MTS  
-- Transaction support for COM components in MTS -- Managing and  
deploying COM components -- Using the Component Gallery --  
Registering and unregistering COM components -- Creating packages  
and managing components with MTS Explorer -- Using role-based  
security -- Further reading -- Chapter 7 Creating Data Services.  
Native tables, views, SQL pass-through, ADO, and OLE DB --  
Connecting to the data -- Data access -- Xbase commands for data --  
Views -- SQL pass-through -- SQL syntax for creating views or  
selecting data -- SELECT - SQL -- WHERE and JOIN -- Aggregates --  
ORDER BY -- GROUP BY and HAVING -- SQL syntax for modifying data  
-- Locking, buffering, and transactions to prevent update conflicts --  
Buffering of tables -- Locking -- Buffering of views -- Transactions --  
What if the record has changed? -- Stored procedure strategies for  
automatic actions -- Importing and exporting data -- ADO, OLE DB,  
and RDS -- Using ADO -- Using recordsets -- Further reading --  
Chapter 8 Creating a Physical Database -- Database and table design  
-- Tables -- Local views -- Remote views -- Creating and maintaining  
views -- Stored procedures -- Persistent relationships -- Referential

integrity -- Connections -- The database container --  
Programmatically creating and maintaining a database -- GenDBC.PRG  
-- CREATE TABLE -- ALTER TABLE -- INDEX -- CREATE TRIGGER --  
CREATE CONNECTION -- CREATE SQL VIEW -- DBSetProp() -- Stored  
procedures and Referential Integrity Builder-generated code --  
Database container maintenance -- Normalization -- Indexing  
strategies -- Some expressions can't be optimized -- Special  
considerations with indexing -- Further reading -- Third-party  
software -- Chapter 9 Testing and Debugging the Solution -- Testing  
-- Unit testing -- Regression testing -- Integration testing -- Stress  
testing -- Beta testing -- Making sure you have tested all of the code  
-- Testing every line -- Finding where things get slow -- Code bugs  
you'll encounter -- Typos -- Run-time errors -- Logic errors -- Design  
errors -- Debugging tools and techniques -- Stop and see what's  
happening with breakpoints -- Alerting yourself to abnormal  
conditions with ASSERT.  
LISA G and understanding events -- Error handling -- Debugging code  
and application distribution -- Special debugging issues with COM  
servers -- Further reading -- Third-party software -- Chapter 10  
Deploying an Application -- Setup Wizard -- Installing the application  
-- Uninstalling the application -- Configuring DCOM on client and  
server -- Configuring a client to use an MTS component -- Configure  
remote Automation on a client and server -- Further reading -- The  
Setup Wizard and installing an application -- Uninstalling an  
application -- DCOM and MTS -- Remote Automation -- Chapter 11  
Maintaining and Supporting an Application -- Planning and  
implementing disaster recovery procedures -- Table corruption --  
Restoring data since the last backup -- Backups that don't work -- The  
"big one" -- Correcting errors and preventing future errors -- The joys  
of object-oriented bug fixes -- Reevaluating the data -- Table  
maintenance -- View maintenance -- Using a local .DBC for views --  
Keeping track of problems -- Deploying application updates -- Making  
changes to an existing database -- Minimizing update size and  
simplifying deployment -- Updating the application while minimizing  
user downtime -- Further reading.

---

## Sommario/riassunto

Covers both the Desktop and Distributed exams in one book Visual FoxPro certification is the way for you to present contract customers and employers with an objective assessment of your technical skills as Visual FoxPro developer. Microsoft certification also provides contract customers and employers with additional confidence in their decision to contract with, or hire you as they solve business problems and move forward in our data-driven, digital economy. Microsoft has moved their certification emphasis from knowledge assessment to measuring of the real-life skills we need to do the job at hand. As an experienced developer, you have a good foundation, but don't necessarily have a lot of time to "fine tune" yourself for an exam. In addition, you might not have an understanding of exactly what Microsoft considers important in your developer skill set. As a new developer, you might think that certification is out of your reach, or not know where to begin your preparation, or how far you have to go to reach your goal. This study guide will assist you in efficient, focused VFP certification exam preparation.

## Sommario/riassunto

The 2010 International Conference on Artificial Intelligence and Computational Intelligence (AICI 2010) was held October 23–24, 2010 in Sanya, China. The AICI 2010 received 1,216 submissions from 20 countries and regions. After rigorous reviews, 105 high-quality papers were selected for publication in the AICI 2010 proceedings. The acceptance rate was 8%. The aim of AICI 2010 was to bring together researchers working in many different areas of artificial intelligence and computational intelligence to foster the exchange of new ideas and promote international collaborations. In addition to the large number of submitted papers and invited sessions, there were several internationally well-known keynote speakers. On behalf of the Organizing Committee, we thank Hainan Province Institute of Computer and Qiongzhou University for its sponsorship and logistics support. We also thank the members of the Organizing Committee and the Program Committee for their hard work. We are very grateful to the keynote speakers, invited session organizers, session chairs, reviewers, and student helpers. Last but not least, we thank all the authors and participants for their great contributions that made this conference possible.
