Sommario/riassunto

"Written by two national leaders in sustainable design, a principal at Perkins + Will and a former chair of the board of USGBC, this is the key guide to designing sustainable health care facilities. Fully updated with the latest sustainable design information, new project case studies, and performance metrics LEED for Healthcare (new in 2011) and the online Green Guide for Health Care, the book covers hospitals, ambulatory care, wellness centers, subacute care, and rehabilitation centers. It also includes a number of new guest contributor essays on sustainable design topics specific to healthcare facilities"--
