| Sommario/riassunto | What are the most significant points at issue between the Reformed and Mennonite communions? Baptism, peace and church-state relations? Is there a way forward? In the hope that there may be, the contributors to this book attempt to clear the way to closer relations between Reformed and Mennonites by careful scholarly discussion of the traditionally disputed questions. The papers gathered here were presented at the second phase of the international dialogue between |

the World Alliance of Reformed Churches (Presbyterian and Congregational) and the Mennonite World Conference.
