

1. Record Nr.	UNINA9910488710603321
Autore	Kniha Kristian
Titolo	Guided surgery in implantology // Kristian Kniha, Karl Andreas Schlegel, Heinz Kniha
Pubbl/distr/stampa	Cham, Switzerland : , : Springer, , [2021] ©2021
ISBN	3-030-75216-X
Descrizione fisica	1 online resource (101 pages)
Disciplina	617.693
Soggetti	Dental implants Implants dentals Cirurgia dental Llibres electrònics
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	Intro -- Preface -- Acknowledgments -- Contents -- Part I: Guided Surgery: A Step-by-Step Guide -- 1: Benefits and Disadvantages of Guided Surgery (Flap vs. Flapless) -- 1.1 Conclusion -- References -- 2: Clinical Preparation for Guided Surgery and Medical Imaging (Different Workflows, Data Matching, and Segmentation) -- 2.1 Workflow I: X-ray Template During CBCT Scan -- 2.2 Workflow II: Software Fusion -- 2.3 Workflow III: Double Scan Technique -- 2.4 Conventional or Digital Impressions -- 2.5 Conclusion -- References -- 3: Preoperative Planning for Guided Surgery (Implant Positioning and Template Designs) -- 3.1 Conclusion -- References -- 4: Implantation with Guided Surgery (Full- vs. Half-Guided Surgery) -- 4.1 Conclusion -- References -- Part II: Risk Management and Clinical Cases -- 5: Anatomical Variations and Risks During Implantation -- 5.1 Mandible -- 5.2 Maxilla -- 5.3 Conclusion -- References -- 6: Complications, Inaccuracies, and Sources of Error in Full-Guided Surgery -- 6.1 CBCT and CT Imaging, Impression, and Oral Scan -- 6.2 Planning Software -- 6.3 Surgical Template -- 6.4 Guided Surgery -- 6.5 Overall Accuracy -- 6.6 Conclusion -- References -- 7: Guided Implantology in Full-Arch Cases (Prosthetic Designs) -- 7.1 Conclusion

-- References -- 8: Guided Surgery with Tooth-Supported Templates: Clinical Cases -- 8.1 Case I: Flapless (Figs. 8.1, 8.2, 8.3, 8.4, 8.5, 8.6, and 8.7) -- 8.2 Case II: Flapless (Figs. 8.8, 8.9, 8.10, 8.11, and 8.12) -- 9: Guided Surgery with Temporary Implant-Supported Templates: Clinical Cases -- 9.1 Case I: Flapless (Figs. 9.1, 9.2, 9.3, 9.4, 9.5, 9.6, 9.7 and 9.8) -- 10: Guided Surgery with Soft Tissue-Supported Templates: Clinical Cases -- 10.1 Case I: Flapless (Figs. 10.1, 10.2, 10.3, and 10.4) -- 10.2 Case II: With Flap (Figs. 10.5, 10.6, 10.7, 10.8, 10.9, and 10.10). 10.3 Case III: With Flap (Figs. 10.11, 10.12, 10.13, 10.14, 10.15, and 10.16) -- 10.4 Case IV: With Flap (Figs. 10.17, 10.18, 10.19, 10.20, and 10.21) -- 11: Guided Surgery with Immediate Implantation and Loading: A Clinical Case -- 11.1 Conclusion -- A Clinical Case -- Case I: Flapless -- References -- 12: Digital Workflow After Implant Placement: Clinical Cases -- 12.1 Case I: With Flap -- 12.2 Case II: Flapless.

2. Record Nr.	UNINA9910969472503321
Autore	Heard Brian J

Sommario/riassunto

Forensic Ballistics in Court: Interpretation and Presentation of Firearms Evidence is an accessible introduction to firearms and ballistics evidence and how this is analysed and presented as evidence in a court of law. The book approaches the subject in terms of the realities of case work, opening with a clear and illustrated explanation of the correct nomenclature for various weapon types and their parts. Ammunition is also extensively covered, again with annotated illustrations. Basic external and terminal ballistics, wounding capabilities are likewise covered to give an over
