Autore	Palacios Antonio
Titolo	Mathematical modeling : a dynamical systems approach to analyze practical problems in STEM disciplines // Antonio Palacios
Pubbl/distr/stampa	Cham, Switzerland : , : Springer, , [2022] ©2022
ISBN	9783031047299 9783031047282
Descrizione fisica	1 online resource (575 pages)
Collana	Mathematical Engineering
Disciplina	620.0015118
Soggetti	Engineering - Mathematical models Engineering mathematics Mathematical models Models matemàtics Matemàtica per a enginyers Llibres electrònics
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.

2. Record Nr.	UNINA9910813800303321
Autore	Favier Jacques
Titolo	Bitcoin & protocoles a blockchain : comprendre l'avenement de la seconde ere numerique // Jacques Favier, Jean-Samuel Lecrivain et Adli Takkal-Bataille ; preface de Jean-Jacques Quisquater
Pubbl/distr/stampa	Bruxelles : , : Mardaga, , [2019] ©2019
Descrizione fisica	1 online resource (153 pages) : ill
Collana	Gestion, Entreprise, Finance
Classificazione	64.16
Disciplina	332.178
Soggetti	Bitcoin virtual currency blockchain
Lingua di pubblicazione	Francese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	La 4e de couverture indique : "Partant du Bitcoin qu'il ne saurait etre question d'escamoter comme on l'a fait trop souvent derriere le processus d'enregistrement des operations dans une blockchain. ce livre entend donner une vision d'ensemble sur une nouvelle ere numerique, venant apres celle ouverte par les protocoles qui regissent Internet. Dans le foisonnement d'idees que l'on peut avancer sur 1ere qu'ouvrent les protocoles a blockchain, il est en effet utile de distinguer ce qui est important de ce qui ne l'est pas : les sequelles des origines et les rapports complexes entre la technologie d'ensemble et l'usage monetaire de la cryptomonnaie, la nature de celle-ci et ce que permet vraiment (ou non) un protocole d'echanges decentralise. Limitant les explications techniques au minimum necessaire, cet ouvrage detaille ce qui se passe reellement sur une blockchain (transactions, certifications, horodatage, automatisation des contrats), ce qui fait consensus et ce qui fait debat (le mode meme de consensus, la gouvernance, la difficile conciliation des enjeux de securite, de programmabilite ou de mise a l'echelle), et les nouvelles « regles du jeu » partagees dans un monde qui, au moins pour une part, se deroule sans l'Etat et sans banque, ou

la nature de certaines proprietes (les communs) et de certaines procedures (les appels au marche par voie d'ICO) introduisent de profonds changements."

Nota di bibliografia	Includes bibliographical references (p. [147]-149).
Nota di contenuto	THE END OF ORGANIZATION THEORY?; Editorial page; Title page; LCC data; Contents; Introduction; Chapter 1. Organization Development and Action Research; Chapter 2. The Foundation Phase: Dialogue Conferences; Chapter 3. The Project Development Phase: Development Organization at Work; Chapter 4. The Institutionalization Phase; Chapter 5. Coda: Theory and Practice in Action Research; Critical Language Theory in Practice; An Organization's Internal Public Sphere: Its Nature and Its Supplementation; References; the series DIALOGUES ON WORK AND INNOVATION
Sommario/riassunto	Organizational theorists talk a lot about organizational development. Although they can express themselves eloquently, too often the

practitioner is not convinced by their talk. The authors of *The End of Organization Theory?* are in favor of the 'doers' doing most of the talking themselves. Thus, in this book, Øyvind Palshaugen tells the story of an action research project in which a reorganization of the discourse between management and workers serves as the basis for an organizational development process. Bjorn Gustavsen, Dag Østerberg and John Shotter add critical comments.
