Sommario/riassunto

Distinguished experts explain the economic trends and varied political goals at work in Southeast Asia. With China's emergence as a powerful entity in Southeast Asia, the region has become an unlikely site of conflict between two of the world's great powers. The United States, historically regarded as the protector of Pacific Southeast Asia—consisting of nations such as Vietnam, the Philippines, Myanmar, and Malaysia—is now called upon to respond to what many would consider bullying on the part of the Chinese. These and other countries have become the economic and political engine of China. While certainly inclined to help the country's former allies, the United States has grown undeniably closer to China in the recent decades of global interconnected economic growth. China, the United States, and the Future of Southeast Asia uncovers and delves into the complicated dynamics of this situation. Covering topics such as the controversial response to human rights violations, the effects of global economic interconnectedness, and contested sovereignty over resource-rich islands, this volume provides a modern and nuanced perspective on the state of the region. For anyone interested in understanding the evolving global balance of power, China, the United States, and the Future of Southeast Asia illuminates how countries as different as Thailand and Indonesia see the growing competition between Beijing and Washington. Sommario/riassunto	1980 entsteht in Polen die freie Gewerkschaft Solidarno. DDR-Staatschef Erich Honecker plädiert dafür, sie mit allen Mitteln zu bekämpfen und ist notfalls bereit, sich an einer militärischen Intervention der Warschauer-Pakt-Staaten zu beteiligen. Filip Gaczak analysiert detailliert alle Schlüsselentscheidungen der DDR-Führung, die nach dem August 1980 im Zusammenhang mit der Lage in Polen getroffen wurden. Die erste von ihnen war, an der Grenze zur Volksrepublik Polen einen »Cordon sanitaire« zu errichten. Auf Druck der Sowjetunion wurde zudem entschieden, zur Beruhigung der Lage in

Polen wirtschaftliche Hilfen zu gewähren – mit wenig Wirkung. Folglich drängte die ostdeutsche Führung auf eine gewaltsame Lösung der » polnischen Krise«. Das Ausbleiben der Entscheidung Moskaus für einen Einmarsch in Polen veranlasste Erich Honecker nach Alternativen zu suchen, wie die »Konterrevolution« im Nachbarland zu unterdrücken sei. Der Autor kann anhand zahlreicher Aktenfunde belegen, dass die DDR-Führung maßgeblich an der Vorbereitung des Kriegsrechts in Polen beteiligt war.
