Sommario/riassunto

In the past, an organization's technical methodologies were expected to fulfill project management process needs. However, they sometimes fell short of applying what is known today as "professional project management" concepts and practices. Written by one of the nation's most highly regarded project management mentors, The Complete Project Management Methodology and Toolkit delineates a "business-relevant" methodology that can be introduced across different industries and business environments. The book describes the ProjectPRISMTM Project Management Me

Sommario/riassunto

The theory of the firm has recently undergone a dramatic transformation, drawing heavily on the pathbreaking work of Armen Alchian. This volume explores his contribution to the debate, including essays by Harold Demetz, Ben Klein, Jerry Jordan and Art Devany.
