Sommario/riassunto	Ernst Troeltsch received an invitation to deliver lectures on his life's work in London, Edinburgh, and Oxford in March 1923 as one of the first German scholars to visit Britain after the First World War; however he died shortly before he could make the trip. The texts of the five lectures, published posthumously, carry Troeltsch's idea of a European cultural synthesis, following from his studies on Historicism and its problems (KGA 16). As part of the complete critical edition, this volume presents the original German lectures together with their English

translations for the first time.
