Descrizione fisica	1 online resource (212 pages)
Disciplina	270
Soggetti	Knowledge, Theory of Eunomianism
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Part One: Language and Theological Knowledge in the Teachings of Origen, Basil and Eunomius -- Part Two: Epistemology and Human Intellection in the Theological Orations of Gregory Nazianzen.
Sommario/riassunto	"Epistemological theories of the patristic authors seldom attract attention of the researchers. This unfortunate status quo contrasts with a crucial place of the theory of knowledge in the thought of such prominent authors as Origen and the Cappadocian fathers. This book surveys the patristic epistemological discourse in its various settings. In the context of the Church history it revolves around the Eunomian controversy, Eunomius' language theory and Gregory Nazianzen's cognitive theory, where the ideas of Apostle Paul were creatively combined with the Peripatetic teaching. In the framework of Biblical exegesis, it touches upon the issues of the textual criticism of the Homeric and Jewish scholarship, which had significantly shaped Origen's paradigm of the Biblical studies."-- Publisher's website.

Development of a Reform Strategy for the Integration of Investment Planning and Budget Management in LIC's A. Introduction B. Key Benchmarks for Capital Budget Planning, Prioritization and Implementation; V. Conclusion; VI. References
Sommario/riassunto	A key challenge in government budgeting is to define an appropriate balance between current and capital expenditures. Budgeting for government capital investment also remains not well-integrated into the formal budget preparation process in many countries. This paper aims to provide an overview of past and current budgeting practices for public investment. The study will also provide a comparison between the budget practices between low-income countries and developed countries and make a series of recommendations for how to ensure efficient integration of capital planning and budget management in low-income countries.

3. Record Nr.	UNINA9911019463503321
Titolo	Ciba Foundation Symposium on Haemopoiesis : cell production and its regulation / / editors for the Ciba Foundation, G.E.W. Wolstenholme and Maeve O'Connor

Descrizione fisica	1 online resource (516 p.)
Collana	Ciba Foundation symposium
Altri autori (Persone)	WolstenholmeG. E. W (Gordon Ethelbert Ward) O'ConnorMaeve
Disciplina	612.11
Soggetti	Hematopoiesis
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and indexes.
Nota di contenuto	Haemopoiesis Cell Production and its Regulation; Contents; The lymphomyeloid complex; Discussion; Radioisotopes in the study of blood cell formation with special reference to lymphocytopoiesis; Discussion; The use of tritiated thymidine in the study of haemopoietic cell proliferation; Discussion; Differentiation, proliferation and maturation of haemopoietic cells studied in tissue culture; Discussion; Cell transfusion and its significance in relation to blood cell formation; Discussion; Models for lymphocyte and plasmocyte formation; Discussion Quantitative investigations on the lymphomyeloid system in thymectomized rats Discussion; On the destination of thymus lymphocytes; Discussion; Production and distribution of granulocytes and the control of granulocyte release; Short communication Radiation effects on neutrophil balance; Discussion; Short communication The mobilization of vitamin B ₁₂ in response to acute blood loss; Discussion;

Studies on the kinetics of erythropoiesis: a model of the erythron;
Discussion; Humoral influences on blood cell formation and release;
Discussion; Factors in the control of haemopoiesis; Discussion
Sources and properties of human urinary erythropoietin Discussion;
Transfusion-induced polycythaemia as a model for studying factors
influencing erythropoiesis; Discussion; General Discussion

Sommario/riassunto

The Novartis Foundation Series is a popular collection of the proceedings from Novartis Foundation Symposia, in which groups of leading scientists from a range of topics across biology, chemistry and medicine assembled to present papers and discuss results. The Novartis Foundation, originally known as the Ciba Foundation, is well known to scientists and clinicians around the world.
