

1. Record Nr.	UNINA9910970314603321
Titolo	Evaluation of guidelines for exposures to technologically enhanced naturally occurring radioactive materials / / Committee on Evaluation of EPA Guidelines for Exposure to Naturally Occurring Radioactive Materials Board on Radiation Effects Research Commission on Life Sciences National Research Council
Pubbl/distr/stampa	Washington, DC, : National Academy Press, 1999
ISBN	9786610186525 9780309183994 0309183995 9781280186523 1280186526 9780309580700 0309580706 9780585150024 0585150028
Edizione	[1st ed.]
Descrizione fisica	1 online resource (293 p.)
Disciplina	612/.01448
Soggetti	Radiation - Health aspects Low-level radiation - Health aspects Radiation, Background - Health aspects Radioactive pollution - Health aspects
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	Evaluation of Guidelines for Exposures to Technologically Enhanced Naturally Occurring Radioactive... -- Copyright -- Preface -- Contents -- Executive Summary -- INTRODUCTION -- PURPOSE AND SCOPE OF STUDY -- RESPONSES TO COMMITTEE CHARGE -- Technical Basis for Differences in Guidelines for TENORM -- Relative Merits of Different Scientific and Technical Assumptions -- Development of Contemporary Risk Analysis for NORM -- OTHER CONCLUSIONS AND RECOMMENDATIONS -- Policy Judgments for Risk Management --

Consistency of Radiation Guidelines -- Importance of Natural Background for Guidelines for TENORM -- Importance of Knowledge of Sources of TENORM -- Differences in Approaches to Radiation Risk Assessment -- Use of Linear, No-threshold Dose-Response Hypothesis -- Directions for Further Research on TENORM -- 1 Introduction -- DEFINITION AND SCOPE OF STUDY -- THE RADIOACTIVE MATERIALS OF CONCERN -- APPROACH TO THE STUDY -- Evaluation of Guidelines for Indoor Radon -- Evaluation of Guidelines for TENORM Other Than Indoor Radon -- Other Considerations -- STRUCTURE OF THE REPORT -- 2 Natural Radioactivity and Radiation -- NATURALLY OCCURRING RADIONUCLIDES -- Uranium -- Radium-226 -- Thorium -- Radium-228 -- Radon -- Lead-210 and Polonium-210 -- Potassium-40 -- Rubidium-87 -- Induced Radionuclides -- NATURAL SOURCES OF EXTERNAL IONIZING RADIATION -- Terrestrial Sources of External Radiation -- Cosmic Radiation -- SUMMARY OF HUMAN EXPOSURES TO NATURAL IONIZING RADIATION -- CONCLUSIONS -- 3 Major Sources of Technologically Enhanced Naturally-Occurring Radioactive Materials -- URANIUM MINING -- PHOSPHATE-FERTILIZER AND ELEMENTAL-PHOSPHORUS PRODUCTION -- RESIDUES OF COAL COMBUSTION -- OIL AND NATURAL-GAS PRODUCTION AND PROCESSING -- MUNICIPAL WATER TREATMENT -- METAL MINING AND PROCESSING -- GEOTHERMAL ENERGY PRODUCTION -- OTHER INDUSTRIES. MINIMIZATION OF TENORM -- NONRADIOLOGIC IMPACTS -- CONCLUSIONS -- 4 Role of Exposure and Dose or Risk Assessments in Developing Radiation Standards -- RISK ASSESSMENT OF CARCINOGENS -- Hazard Identification -- Estimation of Dose-Response Relationship -- Exposure Assessment -- Risk Characterization -- ELEMENTS OF RADIATION RISK ASSESSMENT -- USE OF DOSE OR RISK ASSESSMENT IN DEVELOPING RADIATION STANDARDS -- SUITABLE APPROACHES TO RISK ASSESSMENT IN DEVELOPING STANDARDS -- 5 Basic Approaches to Regulating Radiation Exposures of the Public -- JUDGMENTS ABOUT ACCEPTABILITY OF HEALTH RISKS -- JUDGMENTS ABOUT ACCEPTABILITY OF HEALTH RISKS -- OTHER CONSIDERATIONS IN DEVELOPING STANDARDS -- Justification of Practices -- Measurability of Radioactivity In the Environment -- Natural Background Radiation -- SUMMARY -- 6 Organizations Concerned with Radiation Protection of the Public -- INTRODUCTION -- ENVIRONMENTAL PROTECTION AGENCY -- Federal Guidance On Radiation Protection of the Public -- Environmental Radiation Standards Developed Under Atomic Energy Act -- Environmental Radiation Standards Developed Under Other Laws -- Guidance and Regulations for Indoor Radon -- NUCLEAR REGULATORY COMMISSION -- DEPARTMENT OF ENERGY -- STATE GOVERNMENTS -- NATIONAL COUNCIL ON RADIATION PROTECTION AND MEASUREMENTS -- HEALTH PHYSICS SOCIETY -- INTERNATIONAL COMMISSION ON RADIOLOGICAL PROTECTION -- INTERNATIONAL ATOMIC ENERGY AGENCY -- COMMISSION OF THE EUROPEAN COMMUNITIES -- 7 Environmental Protection Agency Guidances and Regulations for Naturally Occurring Radionuclides -- GUIDANCE ON RADIATION PROTECTION OF THE PUBLIC -- GUIDANCE AND REGULATIONS FOR SPECIFIC SOURCES OR PRACTICES -- Standards for Operations of Uranium Fuel Cycle -- Standards for Radioactivity in Drinking Water -- Standards for Radioactivity in Liquid Discharges. Standards for Uranium and Thorium Mill Tailings -- Standards for Management and Disposal of Radioactive Waste -- Standards for Cleanup of Radioactively Contaminated Sites -- Standards for Airborne Emissions of Radionuclides -- Guidance on Radon in Homes -- Applicability of EPA Guidances and Regulations to TENORM -- Other EPA Initiatives for TENORM -- Other Alternatives for EPA Regulation of

TENORM -- Risks Corresponding to EPA Guidances and Regulations --  
CONSISTENCY OF DIFFERENT GUIDANCES AND REGULATIONS --  
Differences in Statutory and Judicial Mandates -- Differences in Primary  
Bases of Standards -- Differences in Applicability of Standards --  
Differences in Population Groups of Primary Concern -- Differences in  
Considerations of Natural Background -- Other Considerations in  
Comparing Standards -- Summary of Issues of Consistency of  
Standards -- RELATIONSHIP BETWEEN STANDARDS AND DOSES  
EXPERIENCED -- SUMMARY -- 8 Indoor-Radon Guidelines and  
Recommendations -- RADON MEASUREMENT UNITS -- PATHWAYS OF  
HUMAN EXPOSURE -- HEALTH EFFECTS AND RISK EVALUATION OF  
RADON EXPOSURE -- OVERVIEW OF RADON GUIDELINES AND  
RECOMMENDATIONS FOR DWELLINGS -- National Council on Radiation  
Protection and Measurements (NCRP) -- US Environmental Protection  
Agency -- International Commission on Radiological Protection --  
International Atomic Energy Agency -- Commission of the European  
Communities -- Other -- RADON ACTION LEVELS FOR WORKPLACES --  
SUMMARY AND CONCLUSIONS -- 9 Other Guidances for TENORM --  
NATIONAL COUNCIL ON RADIATION PROTECTION AND MEASUREMENTS  
-- INTERNATIONAL COMMISSION ON RADIOLOGICAL PROTECTION --  
HEALTH PHYSICS SOCIETY -- HPS Recommendations on Radiation Dose  
Limits for the General Public -- HPS Recommendations on Radiation  
Standards for Site Cleanup and Restoration -- NUCLEAR REGULATORY  
COMMISSION -- Regulations for Decommissioning of Licensed  
Facilities.  
Guidance on Disposal of Residual Thorium or Uranium -- DEPARTMENT  
OF ENERGY -- Management and Disposal of Small Volumes of TENORM  
-- Management and Disposal of Larger Volumes of TENORM -- STATE  
STANDARDS AND GUIDELINES -- INTERNATIONAL ATOMIC ENERGY  
AGENCY -- COMMISSION OF THE EUROPEAN COMMUNITIES AND OTHER  
NATIONS -- TRANSFERABILITY OF STANDARDS -- 10 Comparison of  
Current Guidances for TENORM in the Environment -- INTRODUCTION  
-- INDOOR RADON -- TENORM OTHER THAN INDOOR RADON --  
Guidances on Radiation Protection of the Public Applicable to TENORM  
-- Guidances for Specific Sources or Practices Involving TENORM --  
Bases For Differences in Guidances -- SUMMARY -- 11 Issues in  
Developing Guidances for TENORM -- SCIENTIFIC AND TECHNICAL  
BASES FOR GUIDANCES -- DIFFERENCES IN TECHNICAL APPROACHES TO  
RISK ASSESSMENT -- Differences Between Environmental Protection  
Agency and Nuclear Regulatory Commission Approaches to... --  
Comments On Differences Between Environmental Protection Agency  
and Nuclear Regulatory Commission... -- Importance of Approaches to  
Risk Assessment for Guidances for TENORM -- Other Issues in Risk  
Assessment and Guidance Development -- POLICY-BASED  
DIFFERENCES IN GUIDANCES FOR TENORM -- Limit on Acceptable Dose  
-- Application of the Environmental Protection Agency's Groundwater-  
Protection Strategy to TENORM -- Differences Between Nuclear  
Regulatory Commission and Environmental Protection Agency  
Approaches to... -- Differences in Guidances for Indoor Radon --  
Difference Between Environmental Protection Agency and National  
Council on Radiation Protection and... -- Treatment of Natural  
Background in Establishing Guidances -- IMPLICATIONS OF GUIDANCES  
FOR RISK ASSESSMENT -- 12 Conclusions and Recommendations --  
CENTRAL CONCLUSIONS AND RECOMMENDATIONS OF THE COMMITTEE  
-- CONTEXT FOR REGULATION OF TENORM.  
RISK ASSESSMENT ISSUES UNDERLYING TENORM REGULATION -- RISK-  
MANAGEMENT ISSUES UNDERLYING TENORM GUIDELINES --  
COMPARABILITY OF GUIDANCES AND REGULATIONS POTENTIALLY

RELATED TO TENORM -- ISSUES RELATED TO BACKGROUND RADIATION  
-- REFERENCES -- Appendix -- RADIATION QUANTITIES AND UNITS  
DEFINITIONS ACRONYMS -- DEFINITIONS -- LIST OF ACRONYMS --  
Information on Committee Members.
