Titolo	Design considerations for evaluating the impact of PEPFAR : workshop summary // Clara Cohen, Michele Orza, and Deepali Patel, rapporteurs ; Board on Global Health, Institute of Medicine of the National Academies
Pubbl/distr/stampa	Washington, D.C., : National Academies Press, c2008
ISBN	0-309-17813-4 1-281-80030-9 9786611800307 0-309-11673-2
Edizione	[1st ed.]
Descrizione fisica	xiv, 127 p. : ill
Altri autori (Persone)	CohenClara OrzaMichele PatelDeepali
Disciplina	362.196979200973
Soggetti	AIDS (Disease) - Prevention - Government policy - United States - Evaluation AIDS (Disease) - Prevention - International cooperation Evaluation research (Social action programs) - United States HIV infections - Prevention - Government policy - United States - Evaluation HIV infections - Prevention - International cooperation Medical assistance, American United States Government policy Evaluation Congresses
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di bibliografia	Includes bibliographical references (p. 125-127).
Nota di contenuto	Intro -- Reviewers -- Contents -- List of Tables, Figures, and Boxes -- Preface -- Overview -- 1 Introduction to Impact Evaluation for PEPFAR -- 2 Envisioning a Meaningful Impact Evaluation for PEPFAR: Moving Beyond Counting -- 3 Designing an Evaluation That Incorporates the Guiding Principles of Coordination, Harmonization, and Capacity Building -- 4 Designing an Impact Evaluation with Robust Methodologies -- Appendixes -- Appendix A: Agenda -- Appendix B: Abbreviations and Acronyms -- Appendix C: List of Participants --

## Appendix D: References.

### Sommario/riassunto

Design Considerations for Evaluating the Impact of PEPFAR is the summary of a 2-day workshop on methodological, policy, and practical design considerations for a future evaluation of human immunodeficiency virus/acquired immunodeficiency syndrome (HIV/AIDS) interventions carried out under the President's Emergency Plan for AIDS Relief (PEPFAR), which was convened by the Institute of Medicine (IOM) on April 30 and May 1, 2007. Participants at the workshop included staff of the U.S. Congress; PEPFAR officials and implementers; major multilateral organizations such as The Global Fund to Fight AIDS, Malaria, and Tuberculosis (The Global Fund), the Joint United Nations Programme on HIV/AIDS (UNAIDS), and the World Bank; representatives from international nongovernmental organizations; experienced evaluation experts; and representatives of partner countries, particularly the PEPFAR focus countries. The workshop represented a final element of the work of the congressionally mandated IOM Committee for the Evaluation of PEPFAR Implementation, which published a report of its findings in 2007 evaluating the first 2 years of implementation, but could not address longer term impact evaluation questions.
