

1. Record Nr.	UNINA9910456238603321
Autore	Korhonen Juha
Titolo	Introduction to 3G mobile communications // Juha Korhonen
Pubbl/distr/stampa	Boston, Massachusetts : , : Artech House, , ©2003 [Piscataqay, New Jersey] : , : IEEE Xplore, , [2003]
ISBN	1-58053-594-1
Edizione	[2nd ed.]
Descrizione fisica	1 online resource (567 p.)
Collana	Artech House mobile communications series
Disciplina	384.5/3 621.3845
Soggetti	Wireless communication systems Mobile communication systems Universal Mobile Telecommunications System Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	History of Mobile Cellular Systems -- Overview of 3G -- Proposals for 3G Standard -- 3GPP -- 3GPP2 -- 3G Evolution Paths -- Principles of CDMA -- Radio-Channel Access Schemes -- Spread Spectrum -- RAKE Receiver --
Sommario/riassunto	This newly revised edition of an Artech House bestseller provides you with an up-to-date introduction to third generation (3G) mobile communication system principles, concepts, and applications. The book clearly presents the basics of UMTS systems in one comprehensive volume, without bogging you down with advanced mathematics. The second edition includes an even more thorough treatment of potential 3G applications and descriptions of new, emerging technologies such as 3G System Release number 5, HSDPA, and Multimedia Broadcast/Multicast Service (MBMS). It also features discussions on both 3GPP and 3GPP2 evolution paths, the specification process, and future 3G upgrades. You get a complete overview of UMTS systems, information on the latest 3G technology standards, a review of the wideband CDMA air interface, network architecture details, and guidance in network planning and management. Other key topics include new concepts in the UMTS network, 3G system signaling

procedures, 3G services and applications, modulation and coding, and standardization organizations and industry groups. An exhaustive list of references, including key website addresses, is provided in every chapter to help you gain access to further information.

2. Record Nr.	UNINA9910716135203321
Titolo	To provide for the collection and publication of statistics of tobacco by the Department of Agriculture. June 3, 1926. -- Committed to the Committee of the Whole House on the State of the Union and ordered to be printed
Pubbl/distr/stampa	[Washington, D.C.] : , : [U.S. Government Printing Office], , 1926
Descrizione fisica	1 online resource (3 pages)
Collana	House report / 69th Congress, 1st session. House ; ; no. 1367 [United States congressional serial set] ; ; [serial no. 8534]
Altri autori (Persone)	HaugenGilbert Nelson <1859-1933> (Republican (IA))
Soggetti	Government missions Legislative amendments Tobacco industry Tobacco Statistics Legislative materials.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Batch processed record: Metadata reviewed, not verified. Some fields updated by batch processes. FDLP item number not assigned.

3. Record Nr.	UNINA9910970429803321
Autore	Goyal Sanjeev
Titolo	Connections : an introduction to the economics of networks // Sanjeev Goyal
Pubbl/distr/stampa	Princeton, N.J. ; ; Oxford, : Princeton University Press, c2007
ISBN	9786612935558 9786612458194 9781282935556 1282935550 9781282458192 1282458191 9780691141183 0691141185 9781400829163 140082916X 9780691126500 069112650X
Edizione	[Course Book]
Descrizione fisica	1 online resource (302 p.)
Classificazione	83.01
Disciplina	330.0151
Soggetti	Economics, Mathematical Social networks - Economic aspects Social networks - Mathematical models
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographic references and index.
Nota di contenuto	Front matter -- Contents -- Acknowledgements -- 1. Introduction -- 2. Networks: Concepts And Empirics -- 3. Games On Networks -- 4. Coordination And Cooperation -- 5. Social Learning -- 6. Social Networks In Labor Markets -- 7. Strategic Network Formation: Concepts -- 8. One-Sided Link Formation -- 9. Two-Sided Link Formation -- 10. Research Collaboration Among Firms -- References -- Index
Sommario/riassunto	Networks pervade social and economic life, and they play a prominent role in explaining a huge variety of social and economic phenomena.

Standard economic theory did not give much credit to the role of networks until the early 1990's, but since then the study of the theory of networks has blossomed. At the heart of this research is the idea that the pattern of connections between individual rational agents shapes their actions and determines their rewards. The importance of connections has in turn motivated the study of the very processes by which networks are formed. In *Connections*, Sanjeev Goyal puts contemporary thinking about networks and economic activity into context. He develops a general framework within which this body of research can be located. In the first part of the book he demonstrates that location in a network has significant effects on individual rewards and that, given this, it is natural that individuals will seek to form connections to move the network in their favor. This idea motivates the second part of the book, which develops a general theory of network formation founded on individual incentives. Goyal assesses the robustness of current research findings and identifies the substantive open questions. Written in a style that combines simple examples with formal models and complete mathematical proofs, *Connections* is a concise and self-contained treatment of the economic theory of networks, one that should become the natural source of reference for graduate students in economics and related disciplines.
