

1. Record Nr.	UNINA9910970451503321
Titolo	Boron hydrides, high potential hydrogen storage materials // Umit B. Demirci and Philippe Miele, editors
Pubbl/distr/stampa	New York, : Nova Science Publishers, c2011
ISBN	1-61470-326-4
Edizione	[1st ed.]
Descrizione fisica	1 online resource (276 p.)
Collana	Chemistry research and applications
Altri autori (Persone)	DemirciUmit B MielePhilippe
Disciplina	665.8/1
Soggetti	Hydrogen - Storage - Materials Boranes
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Intro -- BORON HYDRIDES, HIGH POTENTIAL HYDROGEN STORAGE MATERIALS -- BORON HYDRIDES, HIGH POTENTIAL HYDROGEN STORAGE MATERIALS -- CONTENTS -- PREFACE -- Chapter 1 SOLID-STATE HYDROGEN STORAGE -- Abstract -- Introduction -- 2. Issues Encountering Hydrogen Economy -- 3. Hydrogen Storage Issue -- 3.1 Technical Targets -- 3.2 Physical Methods for Hydrogen Storage -- 3.2.1 High Pressure Storage -- 3.2.2 Cryogenic Storage -- 3.3 Chemical Methods for Hydrogen Storage -- 4. Solids for Hydrogen Storage or Chemical Storage -- 4.1 Adsorption in Porous Materials -- 4.1.1 Activated Carbons including Carbon Nanostructures -- 4.1.2 Hydrogen Physisorption in other Materials -- 4.2 Storage by Absorption -- 4.2.1 Metal Hydrides -- 4.2.2 Complex Hydrides -- 4.2.3 Storage via Chemical Reactions -- Conclusion -- References -- Chapter 2 BORON HYDRIDES -- Abstract -- 1. Introduction -- 2. Boron Compounds -- 2.1 Borides -- 2.2 Boron Hydrides -- 2.3 Boron Halides -- 2.4 Boron-Oxygen Compounds -- 2.5 Boron-Nitrogen Compounds -- 2.6 Other Boron-Based Compounds -- 2.7 Summary -- 3. Borohydrides -- 3.1 All of the Borohydrides -- 3.2 Thermolysis of Borohydrides -- 3.3 Hydrolysis of Borohydrides -- 3.4 Safety Data -- 3.5 Conclusion -- 4. Ammonia-borane and its Derivatives -- 4.1 Ammonia-borane -- 4.2 Amidoboranes -- 4.3 Safety Data -- Conclusion -- References -- Chapter 3 LITHIUM BOROHYDRIDE:

SYNTHESIS, PROPERTIES AND THERMAL DECOMPOSITION -- Abstract --

1. Introduction -- 2. Synthesis Methods -- 3. Crystal Structures -- 4. Ionic Superconduction -- 5. Thermal Decomposition -- 6. Hydrogen Release Enhancement by Catalysts Addition -- 7. Modification of Hydrogen Release by Confinement into Nanoporous Carbons -- Conclusions -- Acknowledgments -- References -- Chapter 4

HYDROGEN CYCLE WITH SODIUM BOROHYDRIDE -- Abstract -- 1. Importance of Sodium Borohydride in Hydrogen Cycle.

2. Sodium Borohydride Production Techniques -- 2.1. Borax Reactions -- 2.2. Trimethyl Borate Reactions -- 2.3. NaBH_4 Reactions -- 3.

Dehydrogenation of NaBH_4 and its usage as Hydrogen Carrier -- 3.1. Thermal Dehydrogenation -- 3.2. Catalytic Dehydrogenation -- 3.2.1. Alkaline Hydrolysis Solution -- 3.2.2. Water Requirement for Hydrolysis -- 3.2.3. Catalyst Preparation and its Effect on Hydrolysis -- 3.2.4.

Supported Materials of Heterogeneous Catalysts -- 3.2.5. Processing Magnetic Catalysts -- 3.2.6. Co-Ni Couple Catalysts and Reaction Mechanism -- 3.2.7. Electrochemical Catalysts -- 3.2.8. Fuel Cell

Application of Catalytic Hydrolysis -- 4. NaBO_2 Recycle -- 5. NaBO_2 -Borax Conversion -- 6. Characterization of NaBH_4 -- Conclusion --

References -- Chapter 5 POTENTIAL AND LIMITATION OF THE DIRECT BOROHYDRIDE FUEL CELL. SPECIAL EMPHASIS ON THE BOROHYDRIDE OXIDATION REACTION (BOR) MECHANISM AND KINETICS ON GOLD ELECTROCATALYSTS -- Abstract -- 1. Introduction -- 2. Experimental

-- 2.1 Reagents and Solutions -- 2.2 On-Line Electrochemical Mass Spectroscopy (OLEMS) -- 2.3 FTIR Spectroscopy -- 2.4 CV and EIS -- 3. The Ideal Reactant for DBFC -- 3.1 Fuel Composition for DBFC

-- 3.2 Alternative Reactants -- 3.3 Fuel Monitoring -- 4. Principle of Operation of a DBFC -- 4.1 Basics and Performance -- 4.2 Influence of the Electrode Geometry and Reactant Channel Design -- 4.3 Membrane and Electrode Materials -- 5. Survey of the BOR on Gold -- 5.1 Is Gold Inactive Regarding the Heterogeneous Hydrolysis of BH_4^- Anion? --

5.2 Evidencing the BOR Intermediates on Gold by FTIR Spectroscopy -- 5.3 Towards a Simplified BOR Pathway for Gold Electrodes --

Conclusion -- Acknowledgments -- References -- Chapter 6 CRYSTAL CHEMISTRY OF LIGHT METAL BOROHYDRIDES -- Abstract --

Introduction -- Crystal Structures -- LiBH_4 -- NaBH_4 -- KBH_4 -- NH_4BH_4 -- $\text{Be}(\text{BH}_4)_2$ -- $\text{Mg}(\text{BH}_4)_2$.

$\text{Ca}(\text{BH}_4)_2$ -- $\text{Mn}(\text{BH}_4)_2$ -- $\text{Al}(\text{BH}_4)_3$ -- $\text{LiK}(\text{BH}_4)_2$ -- $\text{MSc}(\text{BH}_4)_4$ ($\text{M} = \text{Li}, \text{Na}$) -- $\text{M}_2\text{Zn}(\text{BH}_4)_5$ ($\text{M} = \text{Li}, \text{Na}$) -- $\text{NaZn}(\text{BH}_4)_3$ -- Structural Evolution under Non-Ambient Conditions -- Diffraction Studies of the Stability Regions and Structure Evolution under External Stimuli --

Phenomenological and Crystal-Chemical Analysis of the Mechanisms of the Phase Transitions -- Crystal Chemistry -- Geometry of the BH_4 Group -- $\text{BH}_4 \dots \text{M}$ and $\text{BH}_4 \dots \text{BH}_4$ Contacts -- Chemical Destabilization: Mixed-Cation and Mixed-Anion Borohydrides -- Chemical

Destabilization: Substitution in the BH_4 Group -- References --

Chapter 7 AMMONIA BORANE: THERMOLYSIS -- Abstract -- 1.

Introduction -- 2. Ammonia Borane -- 3. Solid Neat Ammonia Borane Thermolysis -- 3.1 The Induction Period -- 3.2 The First Reaction Step -- 3.3 The Second Reaction Step -- 3.4 The Third Reaction Step -- 4.

Thermolysis of Neat Ammonia Borane in Solution -- 5. Catalyzed Ammonia Borane Thermolysis -- 5.1 Catalyzed Solid State Ammonia Borane -- 5.2 Catalyzed Ammonia Borane in Solution -- 6. Ammonia

Borane Compounds Thermolysis -- 6.1 Solid State Ammonia Borane Compounds Thermolysis -- 7. Supported Ammonia Borane Thermolysis

-- 8. Regeneration of Ammonia Borane Dehydrogenation Products -- Conclusion -- References -- Chapter 8 AMMONIA BORANE:

HYDROLYSIS AND ELECTROOXIDATION -- Abstract -- 1. Introduction

-- 2. Ammonia Borane Hydrolysis -- 2.1 Concept -- 2.2 State-of-the-Art -- 2.2.1 Transition Metal Catalyst -- 2.2.2 Effective Gravimetric Hydrogen Storage Capacity -- 2.2.3 Recycling of the Reaction by-Products -- 2.3 Ammonia Borane versus Sodium Borohydride -- 3. Ammonia Borane Electrooxidation -- 3.1 Direct Liquid Fuel Cells -- 3.2 Basics -- 3.3 State-of-the-art and Issues -- 3.4 Direct Ammonia Borane Fuel Cell Versus Direct Borohydride Fuel Cell -- Conclusion -- References -- Chapter 9 METAL AMIDOBORANES -- Abstract. Introduction -- Syntheses -- Structures and Crystal Chemistry -- 1. Metal Amidoboranes -- 2. Other Amidoborane Complexes -- Dehydrogenation Properties -- 1. Lithium Amidoborane -- 2. Sodium Amidoborane -- 3. Calcium Amidoborane -- 4. Structural Characteristics Responsible for the Dehydrogenation Properties -- 5. Other Amidoborane Complexes -- Conclusions -- Acknowledgment -- References -- Chapter 10 CONCLUSION AND OUTLOOK: WHICH FUTURE FOR BORON HYDRIDES? -- Abstract -- 1. Introduction -- 2. Current Potentials of the Boron Hydrides -- 2.1 Borohydrides -- 2.2 Ammonia Borane and Amidoboranes -- 2.3 Summary -- 3. Always the same Challenges -- 3.1 Hydrogen Production and Distribution -- 3.2 Hydrogen Storage -- 3.3 Summary -- 4. The Most Critical Challenges Facing Boron Hydrides -- 4.1 Effective Storage Capacity -- 4.2 Storage Reversibility -- 4.3 Summary -- 5. Greenness Considerations -- 5.1 Green Chemistry -- 5.2 Greenness of the Boron Hydrides -- 5.3 Summary -- Conclusion and Outlook -- References -- INDEX -- Blank Page.

Sommario/riassunto

Boron hydrides are hydrogen storage materials which are the object of intensive investigation because they pose tangible solution to the hydrogen storage issue. This book reviews research on boron hydrides and gives a general view of the perspectives of application.

2. Record Nr.	UNISA996684474903316
Autore	FENGHI, Francesco
Titolo	[Capitale e oggetto sociale : osservazioni e problemi / Francesco Fenghi]
Pubbl/distr/stampa	Milano, : Giuffrè, [1979]
Descrizione fisica	[590]-598 p. ; 25 cm
Disciplina	346.450666
Soggetti	Capitale sociale
Collocazione	XVI.7.Misc. 238
Lingua di pubblicazione	Italiano
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Titolo dell'intitolazione Estratto da: Rivista delle società, anno 24, fasc. 3 (mag.-giu. 1979)
