## Sommario/riassunto

Built environment surrounds us for 90% of our lives but only now are we realising its influence on the environment, our health, and how we think, feel and behave both individually and socially. Spirit & Place shows how to work towards a sustainable environment through socially inclusive processes of placemaking, and how to create places that are nourishing psychologically and physically, to soul and spirit as well as body. This book's unique arguments identify important, but often unrecognised, principles and illustra
