

1. Record Nr.	UNINA9910437936303321
Autore	Istok Jonathan David
Titolo	Push-pull tests for site characterization / / Jonathan David Istok
Pubbl/distr/stampa	New York, : Springer, 2013
ISBN	1-283-62666-7 9786613939111 3-642-13920-5
Edizione	[1st ed. 2013.]
Descrizione fisica	1 online resource (92 p.)
Collana	Lecture notes in earth system sciences, , 2193-8571 ; ; 144
Disciplina	551.49
Soggetti	Engineering geology Building sites Soil mechanics
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Push-pull tests -- Setting up a site -- Evaluation of site -- Improvement of site -- Long-term prognosis -- The shape of things to come -- Analysis.
Sommario/riassunto	The push-pull test is a powerful site characterization technique that has been applied to a wide range of problems in contaminant hydrogeology. The theoretical and practical aspects of push-pull testing were initially developed to characterize groundwater aquifers but the method has now been extended to saturated and unsaturated soils and sediments and to surface water bodies. Dr. Istok and his collaborators have been instrumental in the development of these techniques and he is widely recognized as the world's leading expert in push-pull testing. This is the only reference book available on this powerful method.

2. Record Nr.	UNINA9910970693503321
Autore	Gopakumar Govind
Titolo	Transforming urban water supplies in India : the role of reform and partnerships in globalization // Govind Gopakumar

Edizione	[1st ed.]
Descrizione fisica	1 online resource (185 p.)
Collana	Routledge contemporary South Asia series ; ; 50
Disciplina	363.6/10954
Soggetti	Water resources development - India Water-supply - Government policy - India
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Cover; Transforming Urban Water Supplies in India: The role of reform and partnerships in globalization; Copyright; Contents; List of illustrations; Preface; Acknowledgments; List of abbreviations; 1. Globalization and infrastructures; 2. Studying water reform in India; 3. Transmitting reform policies; 4. Governing urban water supply regimes; 5. Forging partnerships, transforming water supply regimes; 6. Conclusion: globalization and infrastructure in India; Notes; References; Index
Sommario/riassunto	The absence of water supply infrastructure is a critical issue that affects the sustainability of cities in the developing world and the quality of life of millions of people living in these cities. Urban India has probably the largest concentration of people in the world lacking safe access to these infrastructures. This book is a unique study of the politics of water supply infrastructures in three metropolitan cities in contemporary India - Bangalore, Chennai and Kochi. It examines the process of change in water supply infrastructure initiated by notable Public Private Partnership'
