Evaluating interprofessional teamwork -- 8. Synthesising studies of interprofessional teamwork -- 9. Ways forward -- References -- Appendices -- Index.
Sommario/riassunto	PROMOTING PARTNERSHIP FOR HEALTH This book forms part of a

series entitled *Promoting Partnership for Health* published in association with the UK Centre for the Advancement of Interprofessional Education (CAIPE). The series explores partnership for health from policy, practice and educational perspectives. Whilst strongly advocating the imperative driving collaboration in healthcare, it adopts a pragmatic approach. Far from accepting established ideas and approaches, the series alerts readers to the pitfalls and ways to avoid them.

**DESCRIPTION**

*Interprofessional Teamwork for Health and Social Care* is an invaluable guide for clinicians, academics, managers and policymakers who need to understand, implement and evaluate interprofessional teamwork. It will give them a fuller understanding of how teams function, of the issues relating to the evaluation of teamwork, and of approaches to creating and implementing interventions (e.g. team training, quality improvement initiatives) within health and social care settings. It will also raise awareness of the wide range of theories that can inform interprofessional teamwork. The book is divided into nine chapters. The first 'sets the scene' by outlining some common issues which underpin interprofessional teamwork, while the second discusses current teamwork developments around the globe. Chapter 3 explores a range of team concepts, and Chapter 4 offers a new framework for understanding interprofessional teamwork. The next three chapters discuss how a range of range of social science theories, interventions and evaluation approaches can be employed to advance this field. Chapter 8 presents a synthesis of research into teams the authors have undertaken in Canada, South Africa and the UK, while the final chapter draws together key threads and offers ideas for future of teamwork. The book also provides a range of resources for designing, implementing and evaluating interprofessional teamwork activities.

Recommended Action Plan to Improve Compliance with the Basel Core Principles; AUTHORITIES RESPONSE TO THE ASSESSMENT; DETAILED ASSESSMENT; DETAILED ASSESSMENT OF COMPLIANCE WITH BASEL CORE PRINCIPLES A. Supervisory Powers, Responsibilities and Functions B. Prudential Regulations and Requirements
<b>Sommario/riassunto</b>	This paper discusses key findings of the Detailed Assessment of Observance of the Basel Core Principles for Effective Banking Supervision (BCPs) on Denmark. Denmark has a high level of compliance with the BCPs. The Danish Financial Supervisory Authority has appropriate legal authority to carry out supervision effectively, and its risk-based approach has focused well on the key elements of risk within its banking system. The compliance with the credit-risk related principles is uniformly high and the provisioning policies have been adequately enhanced. Its overall supervision is also considered sound, although resource constraints result in an extended supervision cycle and some risk areas receiving insufficient attention.
