

1. Record Nr.	UNINA9910971013603321
Titolo	Emerging needs and opportunities for human factors research // Raymond S. Nickerson, editor ; Committee on Human Factors, Commission on Behavioral and Social Sciences and Education, National Research Council
Pubbl/distr/stampa	Washington, D.C., : National Academy Press, 1995
ISBN	9786612081163 9780309176361 0309176360 9781282081161 1282081160 9780309520577 0309520576 9780585001890 0585001898
Edizione	[1st ed.]
Descrizione fisica	1 online resource (336 p.)
Altri autori (Persone)	NickersonRaymond S
Disciplina	620.8
Soggetti	Human engineering - Research Information technology Labor productivity
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	""Front Matter""; ""Contents""; ""Preface""; ""PART I Summary Report""; ""Emerging Needs and Opportunities for Human Factors Research""; ""PART II Background Papers""; ""1 Productivity in Organizations""; ""2 Training and Education""; ""3 Employment and Disabilities""; ""4 Health Care""; ""5 Environmental Change""; ""6 Communication Technology and Telenetworking""; ""7 Information Access and Usability""; ""8 Emerging Technologies in Work Design""; ""9 Transportation""; ""10 Cognitive Performance Under Stress""; ""11 Aiding Intellectual Work""
Sommario/riassunto	A report identifying 11 potential areas of research in human factors, in the three areas of national and global problems, technology issues, and

human performance. After a summary of the findings of the Committee on Human Factors, papers discuss the need for research on human factors in training and education; health care; environmental change; communication technology; emerging technologies in work design; cognitive performance under stress; and aiding intellectual work. No index. Annotation copyright by Book News, Inc., Portland, OR
