Nota di contenuto	Book Cover; Title; Contents; List of illustrations; List of contributors; Preface; Introduction; A return to the 'Pompeii premise'; Indian and other concepts of time: a holistic framework; Puranic time and the archaeological record; German Romantic chronology and its impact on the interpretation of prehistory; Keeping industrial time; Developing an Indian stone age chronology; Appraising the urban future: an archaeological time perspective; The Hochdorf 'princely' grave and the question of the nature of archaeological funerary assemblages The times of history: archaeology, narrative and non-linear causalityIndex
Sommario/riassunto	The concept of time is salient to all human affairs and can be understood in a variety of different ways. This pioneering collection is the first comprehensive survey of time and archaeology. It includes chapters from a broad, international range of contributors, which combine theoretical and empirical material. They illustrate and explore the diversity of archaeological approaches to time.
