

1. Record Nr.	UNINA9910971212803321
Titolo	Photoperiodism : the biological calendar / / edited by Randy J. Nelson, David L. Denlinger, David E. Somers
Pubbl/distr/stampa	Oxford ; ; New York, : Oxford University Press, 2009
ISBN	0199714630 9780199714636
Edizione	[1st ed.]
Descrizione fisica	xiii, 581 p. : ill., maps
Altri autori (Persone)	NelsonRandy J DenlingerDavid L SomersDavid E. <1954->
Disciplina	612/.022
Soggetti	Photoperiodism
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	pt. 1. Photoperiodism in plants and fungi -- pt. 2. Photoperiodism in invertebrates -- pt. Photoperiodism in vertebrates.
Sommario/riassunto	This book examines the role of photoperiod in timing seasonal adaptations in plants, invertebrates, and vertebrates. The current literature is distinctly separated among researchers working with these different taxa. The field is poised to make rapid progress in the understanding of seasonal clocks at all levels of analysis and this book will stimulate cross-talk among investigators from all related disciplines.
