Sommario/riassunto	This book re-assesses director Jean Renoir's work between his departure from France in 1940 and his death in 1979, and contributes to the debate over how the medium of film registers the impact of trauma. The 1930s ended in catastrophe for both for Renoir and for France: <i>La Regle du jeu</i> was a critical and commercial disaster on its release in July 1939 and in 1940 France was occupied by Germany. Even so, Renoir continued to innovate and experiment with his post-war work, yet the thirteen films he made between 1941 and 1969, constituting nearly half of his work in sound cinema

Sommario/riassunto	This monograph aims to close the gap in our knowledge of the nature and pace of grammatical change during the formative period of today's Indo-Aryan languages. During the 6th-12th c. the gradual erosion of the synthetic morphology of Old Indo-Aryan resulted ultimately in the remodelling of its syntax in the direction of the New Indo-Aryan analytic type. This study concentrates on the emergence and development of the ergative construction in terms of the passive-to-ergative reanalysis and the co-existence of the ergative construction with the old and new analytic passive constructions.
