

1. Record Nr.	UNINA9910971331103321
Autore	Pereira Paula
Titolo	Chitosan nanoparticles for biomedical applications // Paula Pereira ... [et al.]
Pubbl/distr/stampa	New York, : Nova Biomedical Books, c2010
ISBN	1-61761-382-7
Edizione	[1st ed.]
Descrizione fisica	1 online resource (86 p.)
Collana	Biotechnology in agriculture, industry and medicine Nanotechnology science and technology
Disciplina	610.28
Soggetti	Chitosan - Biotechnology Nanoparticles
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Production of chitosan-based nanoparticles -- Biomedical applications.
Sommario/riassunto	Chitosan is a rather abundant material with exquisite properties, which may be processed into a variety of materials including hydrogels, fibres, membranes, etcetera. This book covers the properties and applications of chitosan nanogels in the biomedical field, namely as a drug delivery vehicle for biopharmaceuticals.
