Edizione	[1st ed. 2013.]
Descrizione fisica	1 online resource (X, 161 p. 23 illus.)
Collana	Studies in Fuzziness and Soft Computing, , 1434-9922 ; ; 304
Disciplina	005.74068
Soggetti	Applied mathematics Engineering mathematics Artificial intelligence Application software Mathematical and Computational Engineering Artificial Intelligence Information Systems Applications (incl. Internet)
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di bibliografia	Includes bibliographical references and author index.
Nota di contenuto	1 Research in Probabilistic Spatiotemporal Databases: The SPOT Framework -- 2 A Probabilistic Object-Oriented Database Model with Fuzzy Measures -- 3 Probabilistic XML: Models and Complexity -- 4 Uncertain Data: Representations, Query Processing, and Applications -- 5 A Theoretically-Sound Approach for OLAPing Uncertain and Imprecise Multidimensional Data Streams -- 6 Tractable Probabilistic Description Logic Programs. .
Sommario/riassunto	This book covers a fast-growing topic in great depth and focuses on the technologies and applications of probabilistic data management. It aims to provide a single account of current studies in probabilistic data management. The objective of the book is to provide the state of the art information to researchers, practitioners, and graduate students of information technology of intelligent information processing, and at the same time serving the information technology professional faced with non-traditional applications that make the application of conventional

approaches difficult or impossible.

Sommario/riassunto	The guiding thread of this theoretical review is the illumination of the

impasses of binary thought and of the essentialist conceptions of women and the feminine. In this trajectory, the author's ongoing dialogue with Freud is connected with one aspect of his way of thinking: multicentred and complex. The text addresses questions relating to love, sexual desire, maternity, beauty and the passing of time and highlights current debates concerning women, the feminine, and sexual difference as well as some controversial topics that have been discussed throughout the history of the psychoanalytic movement. One of the most relevant subjects is the notion of 'feminine enigma' and the conceptions of the feminine as the negative of the masculine, which means going into the nature-nurture debate, as well as into considerations of the feminine seen as the other of the masculine. The author points out that the notion of 'feminine enigma' is a displacement of the enigmas inherent to the origins, to the finite time of life (the inevitability of death) and to sexual difference.
