Sommario/riassunto	Until very recently it was assumed that the Asian miracle of prodigious economic growth would continue indefinitely. Europe and America, it seemed, were being left behind. The recent financial crisis in Asia has now changed all that. Francois Godement provides a broad-ranging survey of the regions economies since 1993 and explains the main reasons behind the recent financial crisis. He also examines important factors such as demography, Asian values, crony capitalism, industrial groupings and the wane of political authority. The Asian miracle has not

come to an end, but the author mak
