Sommario/riassunto	Archaeology is a way of acting and thinking-about what is left of the past, about the temporality of what remains, about material and temporal processes to which people and their goods are subject, about the processes of order and entropy, of making, consuming and discarding at the heart of human experience. These elements, and the practices that archaeologists follow to uncover them, is the essence of the archaeological imagination. In this extended essay, renowned archaeological theorist Michael Shanks offers his colleagues and

students a window on this imaginative world of past and pre
