Sommario/riassunto	The Chinese Communist Party and China's Capitalist Revolution examines issues of political change and development in China. In the last 30 years China has experienced a profound political transformation and a degree of political progress but these are largely mired in the assumption that the free market is inherently incompatible with communism, and the perceived lack of political reforms in China. Indeed, there has not been much in the sense of democratization, multi-party competition, freedom of speech and association, but as this book demonstrates, political development is not limited to
