Sommario/riassunto	Most literature on peacekeeping narrowly focuses on particular peacekeeping operations, and the political bargaining between peacekeeping participants. However, there is very little published research on why nations actually commit forces to peacekeeping operations. This new book meets this need.The authors focus specifically on the political and economic motivations that influence the decision to participate in peacekeeping. They consider how definitions of national interest frame the political debate, and what the reasons are for the military support for, or opposition to, peacekeepi
