

1. Record Nr.	UNINA9910971645403321
Titolo	A practical approach to neuroanesthesia // editors, Paul D. Mongan, Sulpicio G. Soriano, Tod B. Sloan
Pubbl/distr/stampa	Philadelphia, : Lippincott Williams & Wilkins, c2013
ISBN	9781496383891 1496383893 9781469832807 1469832801 9781469876368 1469876361 9781451173154
Edizione	[1st ed.]
Descrizione fisica	1 online resource (xx, 432 pages) : illustrations (some color), maps
Collana	Gale eBooks
Altri autori (Persone)	MonganPaul D SorianoSulpicio SloanTod B
Disciplina	617.9/6748
Soggetti	Anesthesia Neurosurgical Procedures Nervous System Diseases - surgery Anesthesia in neurology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	A Practical Approach to Neuroanesthesia -- Contributors -- Preface -- Foreword -- Contents -- Brain Metabolism, Cerebral Blood Flow, and Cerebrospinal Fluid -- Anesthetic Effects on Cerebral Blood Flow and Metabolism -- Fluid Management During Neurosurgical Procedures -- Routine Craniotomy for Supratentorial Masses -- Emergency Craniotomy -- Posterior Fossa Tumor Surgery -- Carotid Endarterectomy -- The Pituitary Gland - Considerations in the Adult -- Intracranial Aneurysms -- Intracranial Arteriovenous Malformations (AVMs) -- Neurosurgical Procedures and Chronic Pain -- Anesthesia for Spinal Cord Injury Surgery -- Anesthesia for Intramedullary Spinal Cord Tumors -- Functional Neurosurgery -- The Approach to the

Pediatric Neurosurgical Patient -- Pediatric Congenital Lesions -- Chiari Malformation -- Craniofacial Surgery -Pediatric Considerations- - Epilepsy Surgery -- Pediatric Neurovascular Lesions -- Sitting Position during Surgery -- Air Embolism -- Stroke and Brain Protection -- Anesthetic-induced Neurotoxicity -- Neurosurgery in the Pregnant Patient -- Electrophysiologic Monitoring (EEG and Evoked Potentials)Intracranial Pressure Monitoring -- Other Monitoring Techniques: Jugular Venous Bulb, Transcranial Doppler, and Brain Tissue Oxygen Monitoring -- Traumatic Brain Injury -- Intensive Care of Spinal Cord Injury in Adults -- Coma and Brain Death -- Index.

Sommario/riassunto

A Practical Approach to Neuroanesthesia is the latest addition in the Practical Approach to Anesthesiology series. This important volume provides updated information on the approach and management for both adult and pediatric patients' physiology dealing with neurosurgical conditions. The outline format with key concepts provides rapid access to clear diagnostic and management guidance for a broad range of neurosurgical and neuroanesthesiology procedures as well as neurocritical care problems. Each chapter provides a comprehensive review of clinical practice focusing on key points, clinical pearls, and key references. This new text provides expert recommendations on critical pre-operative, intra-operative and post-operative care for both adult and pediatric patients undergoing neurosurgical and neuroradiologic procedures. A Practical Approach to Neuroanesthesia is a concise, portable reference suitable for use by anesthesia residents and fellows, practicing anesthesiologists, nurse anesthetists, and anesthesiologist assistants.
