Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Introduction and background -- The built environment -- Construction concepts -- Theory of construction management -- Traditional construction -- Design build -- Management approaches -- Partnering -- Total construction service -- Implications for industry -- The future for construction management.
Sommario/riassunto	An authoritative textbook on construction management offering a clear model for understanding theoretical aspects. The construction industry has become a truly global network of interconnected stakeholders making demands which require the involvement of skilled workforces from all over the world. Construction Management Strategies sets the foundations for understanding and managing construction's inherent complexity and uniqueness. It establishes clear definitions of commonly accepted terms like built environment, construction, civil engineering, etc. which are often giv
