Sommario/riassunto	Heads above Water tells the stories of women and their families who survived the Grand Forks, North Dakota, flood of 1997, one of the worst natural disasters in U.S. history. This book describes the challenges women faced and explores the importance of class, race, gender, sexual orientation, and disability in their disaster recovery. The women found themselves face-to-face with social and familial upheaval, emotional and physical trauma, precarious economic and social status, and feelings of loss and violation. By exploring the experiences of these women, author Alice Fothergill contributes to broader sociological discussions about women's changing roles, the

stigma of needing and receiving assistance, family relationships under stress, domestic violence, downward mobility, and the importance of "home" to one's identity and sense of self. Heads above Water offers poignant insight into women's everyday lives in an extraordinary time.

Sommario/riassunto	Die Publikation möchte mit Blick auf kleine Sammlungen zum Steinkohlenbergbau in Deutschland Mindeststandards bei der Erfassung und Dokumentation von Objekten vorstellen. Im Mittelpunkt stehen dabei Techniken des Fotografierens, die Erstellung von Datenbanken und die Präsentation von Objekten im Netz. Abgerundet wird die Handreichung durch eine Auflistung verschiedener Fördermöglichkeiten für kleine Museen und umfangreiche Literaturangaben. The publication aims to establish minimum standards for small museum collections of Germany's coal mining heritage, including the acquisition and documentation of objects. It focuses on photographic

techniques, database creation, and the presentation of objects online. The guide is rounded out with a list of financial assistance options for small museums and an extensive bibliography.
