Sommario/riassunto	<p><div>Mise-en-scene: Film Style and Interpretation explores and elucidates constructions of this fundamental concept in thinking about film. In uncovering the history of mise-en-scene within film criticism, and through the detailed exploration of scenes from films as Imitation of Life and Lone Star, John Gibbs makes the case for the importance of a sensitive understanding of film style, and provides an introduction to the skills of close reading. This book thus celebrates film-making as well as film criticism that is alive to the creative possibilities of visual style.</div></p>

Sommario/riassunto	At an international conference held in 1981 at the Universidade Estadual of Campinas (Brazil), a controversial lecture was given by John Searle which presented two conceptual theses: that conversation does not have an intrinsic structure about which a relevant theory can be formulated, and that conversations are not subject to (constitutive) rules. This lecture was first published in 1986 under the title "Notes on Conversation", and was revised several times afterwards. The present volume offers the most recent version. Because of the importance of the article for conversation analysis, and fo
