Sommario/riassunto	Filling a gap in the existing literature, this book analyzes the distinctive features of Japan's development aid, especially technical co-operation, in comparison with other donors' aid. Incorporating a wealth of research, it discusses whether Japan is behind other leading donor countries in rethinking its aid policy and whether it lacks transparency,

sensitivity to recipient needs, and a coherent and coordinated policy that targets poverty. The volume assesses the nature and effectiveness of the administration of Japan's aid, and explores the degree of involvement of private sector a
