

1. Record Nr.	UNINA9910972026703321
Titolo	Confronting climate change : strategies for energy research and development // Committee on Alternative Energy Research and Development Strategies, Energy Engineering Board, Commission on Engineering and Technical Systems, National Research Council ; for the United States Department of Energy, Office of Policy, Planning and Analysis, Office of Environmental Analysis
Pubbl/distr/stampa	Washington, D.C., : National Academy Press, 1990
ISBN	9786610211920 9781280211928 128021192X 9780309595018 0309595010 9780585143804 0585143803
Edizione	[1st ed.]
Descrizione fisica	1 online resource (144 p.)
Disciplina	363.73/87
Soggetti	Climatic changes - Government policy - United States Power resources - Research - United States Greenhouse gases - Environmental aspects Greenhouse effect, Atmospheric - Environmental aspects
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	Confronting Climate Change -- Copyright -- Acknowledgments -- Contents -- Highlights -- 1 Strategies for Reducing Greenhouse Gas Emissions: Key Findings and Recommendations -- END-USE SECTOR ANALYSIS -- Electric Power Sector -- Transportation Sector -- Buildings Sector -- Industry Sector -- CURRENT STATUS OF ALTERNATIVE ENERGY R&D -- FINDINGS -- RECOMMENDATIONS -- Focused R&D Strategy-Actions -- Insurance Strategy -- Basic and Generic Research -- GHG Emissions Monitoring and Instrumentation -- Federal outlays for Alternative Energy R&D -- Leveraging Federal Investments Globally -- 2

Background -- GENESIS OF THE STUDY -- PROBLEM DESCRIPTION --  
THE GLOBAL CONTEXT -- NOTES AND REFERENCES -- 3 A Framework  
for Planning and Implementing Energy R&D -- R&D AT  
THE U.S. DEPARTMENT OF ENERGY -- ENERGY R&D OUTSIDE  
THE DOE -- Other Federal Agencies -- The Private Sector -- GRI and  
EPRI -- LESSONS FROM R&D PROGRAMS AND INSTRUMENTS --  
TECHNOLOGY DEVELOPMENT AND APPLICATIONS IN OTHER NATIONS  
-- TECHNOLOGY-ADOPTION PROCESS -- ATTAINING LOW-GHG  
EMISSIONS -- ROLE OF R&D -- ENERGY POLICY AND GHGS --  
ROLE OF THE PRIVATE SECTOR -- MANAGEMENT OF FEDERAL ENERGY  
R&D -- ALTERNATIVE BUDGET STRATEGIES -- LEVERAGING  
FEDERAL INVESTMENTS GLOBALLY -- STRATEGY OPTIONS -- NOTES  
AND REFERENCES -- 4 Potential for Reducing Emissions of Greenhouse  
Gases -- ELECTRIC POWER -- Energy Use and GHG Emissions -- Major  
Targets for Attention -- Availability of Technology to Reduce GHG  
Emissions -- Fossil Fuels -- Capture and Disposal of CO<sub>2</sub> -- Nuclear  
Energy -- Renewables -- R&D Needs and Priorities -- Review of  
DOE Fossil Energy R&D Program -- Fossil Energy R&D  
Needs -- Review of DOE Nuclear Energy R&D Program --  
Nuclear Fission R&D Needs -- Fusion -- Review of DOE  
Renewables R&D Program.  
Renewables R&D Needs -- Current Transmission and  
Distribution (T&D) and Storage R&D Programs --  
T&D and Storage R&D Needs -- Summary -- Fossil  
Fuels -- Nuclear Energy -- Renewables -- T&D and Storage --  
TRANSPORTATION -- Energy Use and GRG Emissions -- CFC  
Considerations -- Major Targets for Attention -- Automobiles and  
Light Trucks -- Other Modes of Transportation -- Achieving Major GRG  
Emissions Reductions in the Long Term -- R&D Priorities in  
Transportation -- Technology Base Research -- Vehicle Components  
and Systems -- Policy Studies -- An Assessment of DOE Transportation  
Research -- RESIDENTIAL AND COMMERCIAL BUILDINGS -- Energy Use  
and GHG Emissions -- Major Targets for Attention -- Path to Reduce  
Emissions -- Reduced Energy Service Demand -- Increased Efficiency  
of Energy Conversion -- Fuel Substitution -- Summary -- R&D  
Needs and Priorities -- Near Term -- Long Term -- Assessment of the  
Federal R&D Program -- Technology-Adoption Strategies --  
Make Energy Service Markets Work -- Provide Education and Training  
-- Improve Building Practices -- Provide Feedback and Motivation --  
Develop Urban Design Practices -- Apply Foreign Technology --  
INDUSTRY -- Energy Use and GHG Emissions -- Major Targets for  
Attention -- Availability of Technology to Reduce GHG Emissions --  
Energy Efficiency Improvements -- Fuel Switching -- Recycling of  
Materials -- Biomass -- R&D Needs and Priorities -- Energy  
Efficiency Improvements -- Fuel Switching -- Recycling of Materials --  
Biomass -- Current Energy R&D Programs -- ADDENDUM:  
BIOMASS FOR ENERGY AND FEEDSTOCKS -- NOTES AND REFERENCES --  
Bibliography.
