Sommario/riassunto	This volume is intended as the first in a series of studies on traditional Arab linguistic theories concentrating on Sbawayhi and his grammatical legacy. Here, the reader is introduced to the major issues and themes that have determined the development of Arabic grammar and presents Sbawayhi in the context of his intellectual and social environment. The papers make significant contributions to and offer in-depth introductions into major aspects of the foundations of Arab Linguistics, early Syriac and medieval Hebrew linguistic traditions. This is a unique reference on the three main Semitic linguistic traditions, accompanied by a detailed analysis of some grammatical and pragmatic aspects of Kitb Sbawayhi in the light of modern theories and scholarship. Contributors include: M. G. Carter, Hanadi Dayyeh, Manuela E.B. Giolfo, Mohamed Hnid, Almog Kasher, Geoffrey Khan, Daniel King, Amal Marogy, Avigail S. Noy, Arik Sadan, Haruko Sakaedani

Sommario/riassunto

First published in 1997, this volume responds to a world in the midst of a telecommunications revolution. What this means is that societies throughout the world are now provided with new opportunities to solve nagging problems. One problem which is the focus of this book is the continual pockets of poverty that exist in countries around the world. In this regard, welfare reform has been slow in coming as nations struggle for allocating limited resources for meeting the needs of all citizens within its boundaries. This book describes a welfare model that is quite innovative, imaginative, but also practical. It can be readily implemented in any country in the world, although the example used in this book is that of one country. The welfare reform model suggested here is all about freedom, opportunity and equity. At its conclusion, it challenges the reader to take welfare reform to the next level.
