Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Access to justice : domestic violence, laws, and procedures -- Innocent infants? : Indians and domestic violence in colonial Mexico -- The king's forgiveness : earthly intercessions and legal culture -- Honor and punishment in late-eighteenth-century Spain -- God's forgiveness : heavenly intercessions -- Dangerous women : gender, ethnicity, and "domestic" disputes in New Granada -- The many shades of pain and punishment in the Spanish Atlantic -- Transition to independence : humanized justice and the reinvention of hegemony and coercion in the Spanish Atlantic.
Sommario/riassunto	For historians, spousal murders are significant for what they reveal about social and family history, in particular the hidden history of day-to-day gender relations, conflicts, crimes, and punishments. 'Fatal Love' examines this phenomenon in the late colonial Spanish Atlantic, focusing on incidents occurring in New Spain (colonial Mexico), New Granada (colonial Colombia), and Spain from the 1740's to the 1820's. In the more than 200 cases consulted, it considers not only the social features of the murders, but also the legal discourses and judicial practices guiding their historical treatment, helping to reveal the historical intersection of domestic violence, private and state/church patriarchy, and the law.

Sommario/riassunto

Second Language Writing Systems looks at how people learn and use a second language writing system, arguing that they are affected by characteristics of the first and second writing systems, to a certain extent independently of the languages involved. This book presents for the first time the effects of writing systems on language reading and writing and on language awareness, and provides a new platform for discussing bilingualism, biliteracy and writing systems. The approach is interdisciplinary, with contributions not only from applied linguists and psychologists but also corpus linguists, educators and phoneticians. A variety of topics are covered, from handwriting to spelling, word recognition to the mental lexicon, and language textbooks to metalinguistic awareness. Though most of the studies concern adult L2 learners and users, other populations covered include minority children, immersion students and bilingual children. While the emphasis is on English as the L2 writing system, many other writing systems are analysed as L1 or L2: Arabic, Chinese, Dutch, Gujarati, Indonesian, Irish, Italian and Japanese. Approaches that are represented include contrastive analysis, transfer, poststructuralism, connectionism and corpus analysis. The readership is SLA and bilingualism researchers, students and teachers around the world; language teachers will also find much food for thought.
