

1. Record Nr.	UNINA9910972831003321
Autore	Jorgensen Sven Erik
Titolo	Environmental Management Handbook, Second Edition - Six Volume Set
Pubbl/distr/stampa	Milton : , : Taylor & Francis Group, , 2020 ©2021
ISBN	9781000082548 1000082547
Edizione	[2nd ed.]
Descrizione fisica	1 online resource (3829 pages)
Collana	Applied Ecology and Environmental Management Series
Altri autori (Persone)	FathBrian D
Disciplina	371.7/80941
Soggetti	Child welfare
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Cover -- Volume1 -- Cover -- Half Title -- Series Page -- Title Page -- Copyright Page -- Table of Contents -- Preface -- Editors -- Contributors -- Section I: Anthropogenic Chemicals: Human Manufactured and Activities -- 1: Acaricides -- 2: Endocrine Disruptors -- 3: Herbicides -- 4: Herbicides: Non-Target Species Effects -- 5: Insecticides: Aerial Ultra-Low-Volume Application -- 6: Neurotoxicants: Developmental Experimental Testing -- 7: Persistent Organic Pesticides -- 8: Pollutants: Organic and Inorganic -- 9: Pollution: Genotoxicity of Agrotoxic Compounds -- 10: Pollution: Pesticides in Agro-Horticultural Ecosystems -- 11: Pollution: Pesticides in Natural Ecosystems -- 12: Polychlorinated Biphenyls (PCBs) -- 13: Toxic Substances -- Section II: Natural Elements and Chemicals -- 14: Allelochemicals -- 15: Aluminum -- 16: Boron: Soil Contaminant -- 17: Cadmium: Toxicology -- 18: Carbon: Soil Inorganic -- 19: Chromium -- 20: Cobalt and Iodine -- 21: Copper -- 22: Globalization -- 23: Heavy Metals -- 24: Inorganic Carbon: Composition and Formation -- 25: Lead: Ecotoxicology -- 26: Lead: Regulations -- 27: Mercury -- 28: Mycotoxins -- 29: Nitrogen -- 30: Phenols -- 31: Phosphorus: Agricultural Nutrient -- 32: Potassium -- 33: Radionuclides -- 34: Rare Earth Elements -- 35: Strontium -- 36: Sulfur -- 37: Sulfur Dioxide -- 38: Vanadium and Chromium Groups -- Section III: Basic Environmental Processes -- 39: Adsorption -- 40: Cadmium and Lead: Contamination

-- 41: Heavy Metals: Organic Fertilization Uptake -- 42: Inorganic Carbon: Global Carbon Cycle -- 43: Inorganic Carbon: Modeling -- 44: Inorganic Compounds: Eco-Toxicity -- 45: Leaching -- 46: Aquatic Communities: Pesticide Impacts -- 47: Phosphorus: Riverine System Transport -- 48: Nitrogen: Biological Fixation -- 49: Nutrients: Best Management Practices.
50: Nutrients: Bioavailability and Plant Uptake -- 51: Nutrient-Water Interactions -- 52: Pollution: Non-Point Source -- 53: Pollution: Point Sources -- 54: Radioactivity -- 55: Telecouplings -- Index -- Volume2 -- Cover -- Half Title -- Series Page -- Title Page -- Copyright Page -- Table of Contents -- Preface -- Editors -- Contributors -- Section I: APC: Anthropogenic Chemicals and Activities -- 1: Animals: Sterility from Pesticides -- 2: Bacillus Thuringiensis: Transgenic Crops -- 3: Biopesticides -- 4: Birds: Chemical Control -- 5: Birds: Pesticide Use Impacts -- 6: Insect Growth Regulators -- Section II: COV: Comparative Overviews of Important Topics for Environmental Management -- 7: Biodiversity and Sustainability -- 8: Biofertilizers -- 9: Ecosystems: Large-Scale Restoration Governance -- 10: Ecosystems: Planning and Trade-Offs -- 11: Natural Enemies: Conservation -- 12: Pests: Landscape Patterns -- Section III: CSS: Case Studies of Environmental Management -- 13: Biological Control of Vertebrates: Myxoma Virus and Rabbit Hemorrhagic Disease Virus as Biological Controls for Rabbits -- 14: Cabbage Disease Ecology and Management -- 15: Natural Enemies and Biocontrol: Artificial Diets -- Section IV: DIA: Diagnostic Tools: Monitoring, Ecological Modeling, Ecological Indicators, and Ecological Services -- 16: Animals: Toxicological Evaluation -- 17: Bioindicators for Sustainable Agroecosystems -- 18: Ecological Indicators: Eco-Exergy to Emergy Flow -- 19: Ecological Indicators: Ecosystem Health -- 20: Sustainable Fisheries: Models and Management -- Section V: ENT: Environmental Management using Environmental Technologies -- 21: Bioremediation: Contaminated Soil Restoration -- 22: Biotechnology: Pest Management -- 23: Plant Pathogens (Fungi): Biological Control -- 24: Plant Pathogens (Viruses): Biological Control.
25: Stored-Product Pests: Biological Control -- 26: Weeds (Insects and Mites): Biological Control -- Section VI: NEC: Natural Elements and Chemicals Found in Nature -- 27: Antagonistic Plants -- 28: Arthropod Host-Plant Resistant Crops -- 29: Biomass -- 30: Nematodes: Biological Control -- Section VII: PRO: Basic Environmental Processes -- 31: Agroforestry: Water Use Efficiency -- 32: Bacterial Pest Control -- 33: Bioaccumulation -- 34: Biodegradation -- 35: Biological Control of Vertebrates -- 36: Biological Controls -- 37: Biological Factors Impeding Recovery of Predatory Fish Populations -- 38: Bioremediation -- 39: Composting -- 40: Insects and Mites: Biological Control -- 41: Invasion Biology -- Index -- Volume3 -- Cover -- Half Title -- Series Page -- Title Page -- Copyright Page -- Table of Contents -- Preface -- Editors -- Contributors -- Section I: APC: Anthropogenic Chemicals -- 1: Agricultural Soils: Nitrous Oxide Emissions -- 2: Agriculture: Energy Use and Conservation -- 3: Agriculture: Organic -- 4: Erosion by Water: Accelerated -- 5: Erosion: Irrigation-Induced -- 6: Pesticide Translocation Control: Soil Erosion -- 7: Pesticides -- 8: Salt-Affected Soils: Sustainable Agriculture -- 9: Sodic Soils: Irrigation Farming -- Section II: COV: Comparative Overviews of Important Topics For Environmental Management -- 10: Agricultural Soils: Carbon and Nitrogen Biological Cycling -- 11: Agricultural Soils: Phosphorus -- 12: Erosion and Global Change -- 13: Erosion and Precipitation -- 14: Erosion: History -- 15: Erosion by Wind: Global Hot Spots -- 16: Erosion by Wind: Principles -- 17: Erosion: Snowmelt -- 18: Erosion:

Soil Quality -- 19: Farming: Organic -- 20: Global Climate Change: World Soils -- 21: Integrated Farming Systems -- 22: Organic Soil Amendments -- 23: Pasturelands, Rangelands, and Other Grazing Social-Ecological Systems.

24: Salt-Affected Soils: Physical Properties and Behavior -- 25: Sodic Soils: Properties -- 26: Soil Degradation: Global Assessment -- 27: Soil Erosion and Carbon Dioxide -- 28: Soil Quality: Carbon and Nitrogen Gases -- 29: Sustainable Agriculture: Soil Quality -- Section III: CSS: Case Studies of Environmental Management -- 30: Drought and Agricultural Production in the Central Andes -- 31: Mines: Rehabilitation of Open Cut -- Section IV: DIA: Diagnostic Tools: Monitoring, Ecological Modeling, Ecological Indicators, and Ecological Services -- 32: Bioenergy Crops: Carbon Balance Assessment -- 33: Erosion by Water: Amendment Techniques -- 34: Erosion by Water: Assessment and Control -- 35: Erosion by Water: Empirical Methods -- 36: Erosion by Water: Process-Based Modeling -- 37: Erosion by Wind: Source, Measurement, Prediction, and Control -- 38: Erosion Control: Tillage and Residue Methods -- 39: Pest Management: Modeling -- 40: Soil Quality: Indicators -- Section V: ELE: Focuses on the Use of Legislation or Policy to Address Environmental Problems -- 41: Acid Sulfate Soils: Management -- 42: Agricultural Water Quantity Management -- 43: Erosion by Water: Vegetative Control -- 44: Erosion Control: Soil Conservation -- 45: Farming: Organic Pest Management -- 46: Integrated Nutrient Management -- 47: Integrated Pest Management -- 48: Integrated Weed Management -- 49: Manure Management: Compost and Biosolids -- 50: Manure Management: Dairy -- 51: Manure Management: Phosphorus -- 52: Manure Management: Poultry -- 53: Organic Matter: Management -- 54: Pest Management -- 55: Pest Management: Ecological Agriculture -- 56: Pest Management: Ecological Aspects -- 57: Pest Management: Legal Aspects -- Section VI: ENT: Environmental Management Using Environmental Technologies -- 58: Acid Sulfate Soils: Formation. 59: Erosion and Sediment Control: Vegetative Techniques -- 60: Precision Agriculture: Engineering Aspects -- 61: Sodic Soils: Reclamation -- 62: Tillage Erosion: Terrace Formation -- Section VII: NEC: Natural Elements and Chemicals Found in Nature -- 63: Erosion by Wind-Driven Rain -- 64: Organic Matter: Global Distribution in World Ecosystems -- 65: Permafrost -- 66: Salt-Affected Soils: Plant Response -- Section VIII: PRO: Basic Environmental Processes -- 67: Agricultural Runoff -- 68: Desertification -- 69: Desertification: Prevention and Restoration -- 70: Erosion -- 71: Erosion by Water: Erosivity and Erodibility -- Index -- Volume4 -- Cover -- Half Title -- Series Page -- Title Page -- Copyright Page -- Table of Contents -- Preface -- Editors -- Contributors -- Section I: APC: Anthropogenic Chemicals and Activities -- 1: Aquatic Communities: Pesticide Impacts -- 2: Coastal Water: Pollution -- 3: Groundwater: Mining Pollution -- 4: Groundwater: Nitrogen Fertilizer Contamination -- 5: Groundwater: Pesticide Contamination -- 6: Lakes and Reservoirs: Pollution -- 7: Mines: Acidic Drainage Water -- 8: Rivers and Lakes: Acidification -- 9: Rivers: Pollution -- 10: Sea: Pollution -- Section II: COV: Comparative Overviews of Important Topics for Environmental Management -- 11: Rain Water: Harvesting -- 12: Water Harvesting -- 13: Groundwater: Saltwater Intrusion -- 14: Irrigation Systems: Water Conservation -- 15: Irrigation: Erosion -- 16: Irrigation: River Flow Impact -- 17: Irrigation: Saline Water -- 18: Irrigation: Sewage Effluent Use -- 19: Irrigation: Soil Salinity -- 20: Managing Water Resources and Hydrological Systems -- 21: Runoff Water -- 22: Salt Marsh Resilience and Vulnerability to Sea-Level Rise and Other Environmental Impacts -- 23: The Evolution of

Water Resources Management -- 24: Wastewater and Water Utilities.
25: Wastewater: Municipal.

Sommario/riassunto

The handbook is an excellent resource for finding basic knowledge on environmental systems. The experience, evidence, methods, and models used are presented in six stand-alone volumes, arranged along the major environmental systems. The chapters are contributed by leading experts from around the globe.
