Sommario/riassunto	International in perspective, the essays in this volume are primarily

concerned with two facets of the mixed economy of welfare--charity and mutual aid. Emphasizing the close relationship between these two elements and the often blurred boundaries between each of them and commercial provision, contributors raise crucial questions about the relationship between rights and responsibilities within the mixed economy of welfare and the ties which bind both the donors and recipients of charity and the members of voluntary organisations. The volume critically assesses the relationships between the
