Cultural Projects and Structural Transformation in the Canadian Legal Profession - W Wesley Pue

Sommario/riassunto

This is the first book that directly addresses the cultural history of the legal profession. An international team of scholars canvasses wide-ranging issues concerning the culture of the legal profession and the wider cultural significance of lawyers, including consideration of the relation to cultural processes of state formation and colonisation. The essays describe and analyse significant aspects of the cultural history of the legal profession in England, Canada, Australia, France, Germany, Italy, Sweden, Switzerland, Norway and Finland. The book seeks to understand the complex ways in which lawyers were imaginatively and institutionally constructed, and their larger cultural significance. It illustrates both the diversity and the potential of a cultural approach to lawyers in history. Contents: Introduction and Overview; Part I The Formation of Lawyers; Part II Lawyers and the Liberal State; Part III Work and Representations; Part IV Lawyers and Colonialism Contributors: David Applebaum, Professor of History, Rowan University, Glassboro, NJ; Harold Dick, Barrister and Solicitor, City of Winnipeg, Manitoba, Canada; Ann Fidler, Assistant Professor and Dean, History Department, Honors Tutorial College, Ohio University; Jean-Louis Halperin, University of Bourgogne, CNRS; Esa Konttinen, Senior Lecturer of Sociology, University of Jyväskylä, Finland; David Lemmings, Associate Professor of History, University of Newcastle, Australia; Anne McGillivray, Professor of Law, University of Manitoba, Canada; Rob McQueen, Professor of Law, Victoria University, Melbourne, Australia; Kjell A Modeer, Lund University, Sweden; W. Wesley Pue, Nemetz Chair in Legal History, Faculty of Law, University of British Columbia; John Savage, Assistant Professor, History Department, Lehigh University; Hannes Siegrist, Professor of Modern European History, University of Leipzig; David Sugarman, Professor of Law, Law School, Lancaster University

Sommario/riassunto	"After their sequestering on reservations across the West, American Indians suffered from appalling rates of disease and morbidity. While the United States Indian Service (Bureau of Indian Affairs) provided some services prior to 1908, it was not until then that the Indian Medical Service was established for the purpose of providing services to American Indians. Born in an era of assimilation and myths of vanishing Indians, the Indian Medical Service provided emergency and curative care with little forethought of preventive medicine. If You Knew the Conditions argues that the U.S. Congress provided little more than basic, curative treatment, and that this Congressional parsimony is reflected in the services (or lack thereof) provided by the Indian Medical Service." "David H. DeJong considers the mediocre results of the Indian

Medical Service from a cultural perspective. He argues that, rather than considering a social conservation model of medicine, the Indian Service focused on curative medicine from a strictly Western perspective. This failure to appreciate the unique American Indian cultural norms and values associated with health and well-being led to a resistance from American Indians which seemingly justified parsimonious Congressional appropriations and initiated a cycle of benign neglect. *If You Knew the Conditions* examines the impact of the long-standing Congressional mandate of cultural assimilation, combined with the Congressional desire to abolish the Indian Service, on the degree and extent of disease in Indian Country."--Jacket
