

1. Record Nr.	UNINA9910973425603321
Autore	Coremans Chris
Titolo	AJAX and Flash development with OpenLaszlo : a tutorial // Chris Coremans
Pubbl/distr/stampa	[Vancouver, B.C.], : Brainy Software, 2006
Edizione	[1st ed.]
Descrizione fisica	1 online resource (327 p.)
Soggetti	Ajax (Web site development technology)
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Includes index.
Nota di contenuto	Intro -- Contents -- Introduction -- Chapter 1 -- Chapter 2 -- Chapter 3 -- Chapter 4 -- Chapter 5 -- Chapter 6 -- Chapter 7 -- Chapter 8 -- Chapter 9 -- Chapter 10 -- Chapter 11 -- Chapter 12 -- Chapter 13 -- Chapter 14 -- Chapter 15 -- Appendix A -- Appendix B -- Index.
Sommario/riassunto	Introducing developers to OpenLaszlo-- a new technology for developing Flash that is based on XML and JavaScript-- this guide provides developers with all the information about this free and open-source tool, including how to code within the OpenLaszlo development environment and the OpenLaszlo development suite as it applies to rapid development time. How and why OpenLaszlo is used and supported by industry leaders such as IBM and Yahoo! is also discussed.
