Edizione	[1st ed.]
Descrizione fisica	1 online resource (66 p.)
Collana	ONR assessment series
Disciplina	359.9/81/0973
Soggetti	Air weapons
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di contenuto	Front Matter -- Preface -- Acknowledgment of Reviewers -- Contents -- Executive Summary -- 1 Introduction -- 2 General Observations -- 3 Discovery and Invention Technology Thrusts -- 4 Thrusts of the Time Critical Strike FNC Program -- A Biographies of Committee Members and Staff -- B Agenda for the Committee's Meeting -- C Acronyms and Abbreviations.
Sommario/riassunto	The Office of Naval Research (ONR) contracted with the Naval Studies Board (NSB) of the National Research Council (NRC) to establish a committee to review ONR's Air and Surface Weapons Technology (ASWT) program. The committee convened on May 14 and 15, 2002, and reviewed more than 20 science and technology (S&T) efforts that were presented as constituting the ASWT program. The committee then met separately on May 16, 2002, to formulate its findings and recommendations. This report represents the consensus views of the

committee and is based on the information presented prior to and at the review, as well as on the committee members' accumulated experience and expertise in military operations, systems, and technologies.
