

1. Record Nr.	UNINA9910973752303321
Titolo	Thermionics Quo Vadis? : an assessment of the DTRA's advanced thermionics research and development program // Committee on Thermionic Research and Technology, Aeronautics and Space Engineering Board, Division on Engineering and Physical Sciences, National Research Council
Pubbl/distr/stampa	Washington, D.C., : National Academy Press, c2001
ISBN	9786610209552 9780309170192 0309170192 9781280209550 1280209550 9780309509657 0309509653
Edizione	[1st ed.]
Descrizione fisica	1 online resource (84 p.)
Collana	Compass series
Disciplina	621.31/243
Soggetti	Thermionic converters
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	"This study was supported by Contract DTRA01-00-C-0001 between the National Academy of Sciences and the Defense Threat Reduction Agency"--T.p. verso.
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	""Front Matter""; ""Preface""; ""Contents""; ""Tables, Figures, and Boxes""; ""Executive Summary""; ""1 Introduction""; ""2 Conclusions Regarding the Current DTRA Program""; ""3 Overview of the Technology""; ""4 Solar Thermionics""; ""5 Nuclear Thermionics""; ""6 Terrestrial Applications""; ""7 Assessment of Progress""; ""Appendix A Statement of Task""; ""Appendix B Biographical Sketches of Committee Members""; ""Appendix C Electric Propulsion Considerations""; ""Appendix D Acronyms""
Sommario/riassunto	This report evaluates the Defense Threat Reduction Agency prior and present sponsored efforts; assess the present state of the art in thermionic energy conversion systems; assess the technical challenges to the development of viable thermionic energy conversion systems for

both space and terrestrial applications; and recommend a prioritized set of objectives for a future research and development program for advanced thermionic systems for space and terrestrial applications.
