

1. Record Nr.	UNINA9910973973103321
Autore	Weeks Stuart
Titolo	The Making of Many Books : Printed Works on Ecclesiastes 1523—1875 // Stuart Weeks
Pubbl/distr/stampa	Winona Lake, Indiana : , : Eisenbrauns, , 2014 ©2014
ISBN	9781575068800 157506880X
Edizione	[1st ed.]
Descrizione fisica	1 online resource (214 p.)
Disciplina	016.223/8
Soggetti	HISTORY / Ancient / General Electronic books
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and indexes.
Nota di contenuto	Front matter -- Contents -- Introduction -- Abbreviations -- Bibliography -- Indexes
Sommario/riassunto	Taking advantage of the unprecedented access to books and information that has become available in the last few years, this bibliography identifies and traces the history of hundreds of books and articles on Ecclesiastes published in many different languages before 1875. It includes not just scholarly literature but exegetical sermons, homiletic works, and poetic paraphrases of the text in order to offer significantly more comprehensive coverage than in any earlier bibliography. The publication history of each work is outlined in detail, with brief discussions of the background or content where appropriate, cross-references are given to major bibliographies and bibliographical databases, and indexes of authors, publishers, and biblical references are provided. Intended to serve as an important resource not only for students of Ecclesiastes and for bibliographers but for all who are interested in the history of reception or interpretation of the Bible, this bibliography also includes coverage of many more general works on the Megillot, on the Old Testament, and on the Bible as a whole in this period.

2. Record Nr.	UNINA9910770273603321
Autore	Hendricks Perry
Titolo	Skeptical Theism / / by Perry Hendricks
Pubbl/distr/stampa	Cham : , : Springer Nature Switzerland : , : Imprint : Palgrave Macmillan, , 2023
ISBN	9783031342714 3031342712
Edizione	[1st ed. 2023.]
Descrizione fisica	1 online resource (302 pages)
Collana	Palgrave Frontiers in Philosophy of Religion, , 2634-6184
Disciplina	211.3
Soggetti	Religion - Philosophy Philosophy of Religion

Nota di contenuto	1. Introduction -- 2. Axiological Skeptical Theism Proved -- 3. Deontological Skeptical Theism Proved -- 4. Skeptical Theism and The Problems of Evil -- 5. Skeptical Theism and Other Arguments for Atheism -- 6. Skeptical Theism Defeated? -- 7. Faithful Skeptical Theism -- 8. Theodicy and Natural Theology -- 9. Commonsense Problems of Evil.
Sommario/riassunto	<p>"Perry Hendricks raises the discussion of skeptical theism to a new level of sophistication, relying on detailed arguments to support skeptical theism instead of just intuitions and analogies. This book is a must-read for anyone interested in the intellectual problem of evil." -Paul Draper, Professor of Philosophy, Purdue University "Skeptical theism—which expresses skepticism about our ability to accurately evaluate divine permission of suffering and evil—is one of the most popular contemporary replies to the atheistic argument from evil. Perry Hendricks' book, Skeptical Theism, is a must-read work for anyone interested in this response to the problem of evil or in atheistic arguments more generally. It is chock-full of novel and compelling reasoning, both in support of skeptical theism and in response to all of the major objections to that view to date." -Michael Bergmann, Professor of Philosophy, Purdue University</p> <p>Is evil evidence against the existence of God? Does divine hiddenness provide an evidential problem for theism? Is our evolutionary history evidence that God</p>

doesn't exist? Skeptical theism is the view that humans are cognitively limited in important ways that prevent us from providing affirmative answers to these evidential questions. In this book—the first monograph published on skeptical theism—Perry Hendricks gives careful, novel, and compelling arguments in favor of skeptical theism and provides a comprehensive defense of it, addressing all major objections to skeptical theism on offer. The implications of skeptical theism are teased out: it undermines the most prominent arguments for atheism on offer, which significantly lowers the epistemic status of atheism. Perry Hendricks is an adjunct professor at the University of Minnesota, Morris. He has published numerous articles in such journals as: *Analysis*, *American Philosophical Quarterly*, *Ergo*, *The Journal of the American Philosophical Association*, and *Pacific Philosophical Quarterly*.
