Sommario/riassunto	Chicano English can rightly be said to be, in its different varieties, the most widespread ethnic dialect of U.S. English, spoken by large sections of the population in the American Southwest. It represents a type of speech referred to by E. Haugen as a 'bilingual' dialect, having developed out of a stable Spanish-English setting. In their book, the authors provide a comprehensive examination of Chicano English, devoting particular emphasis to the social factors determining its

characteristic features and uses.
